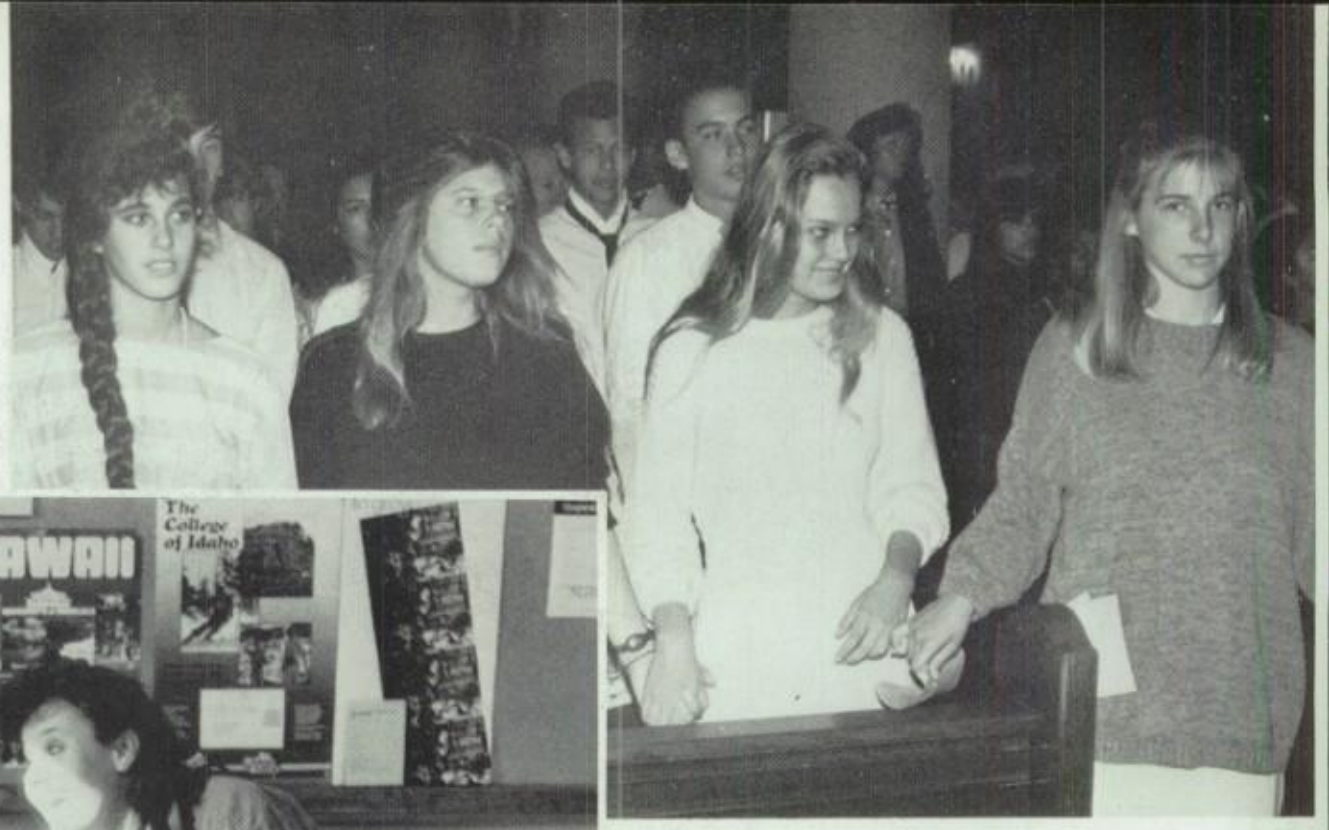
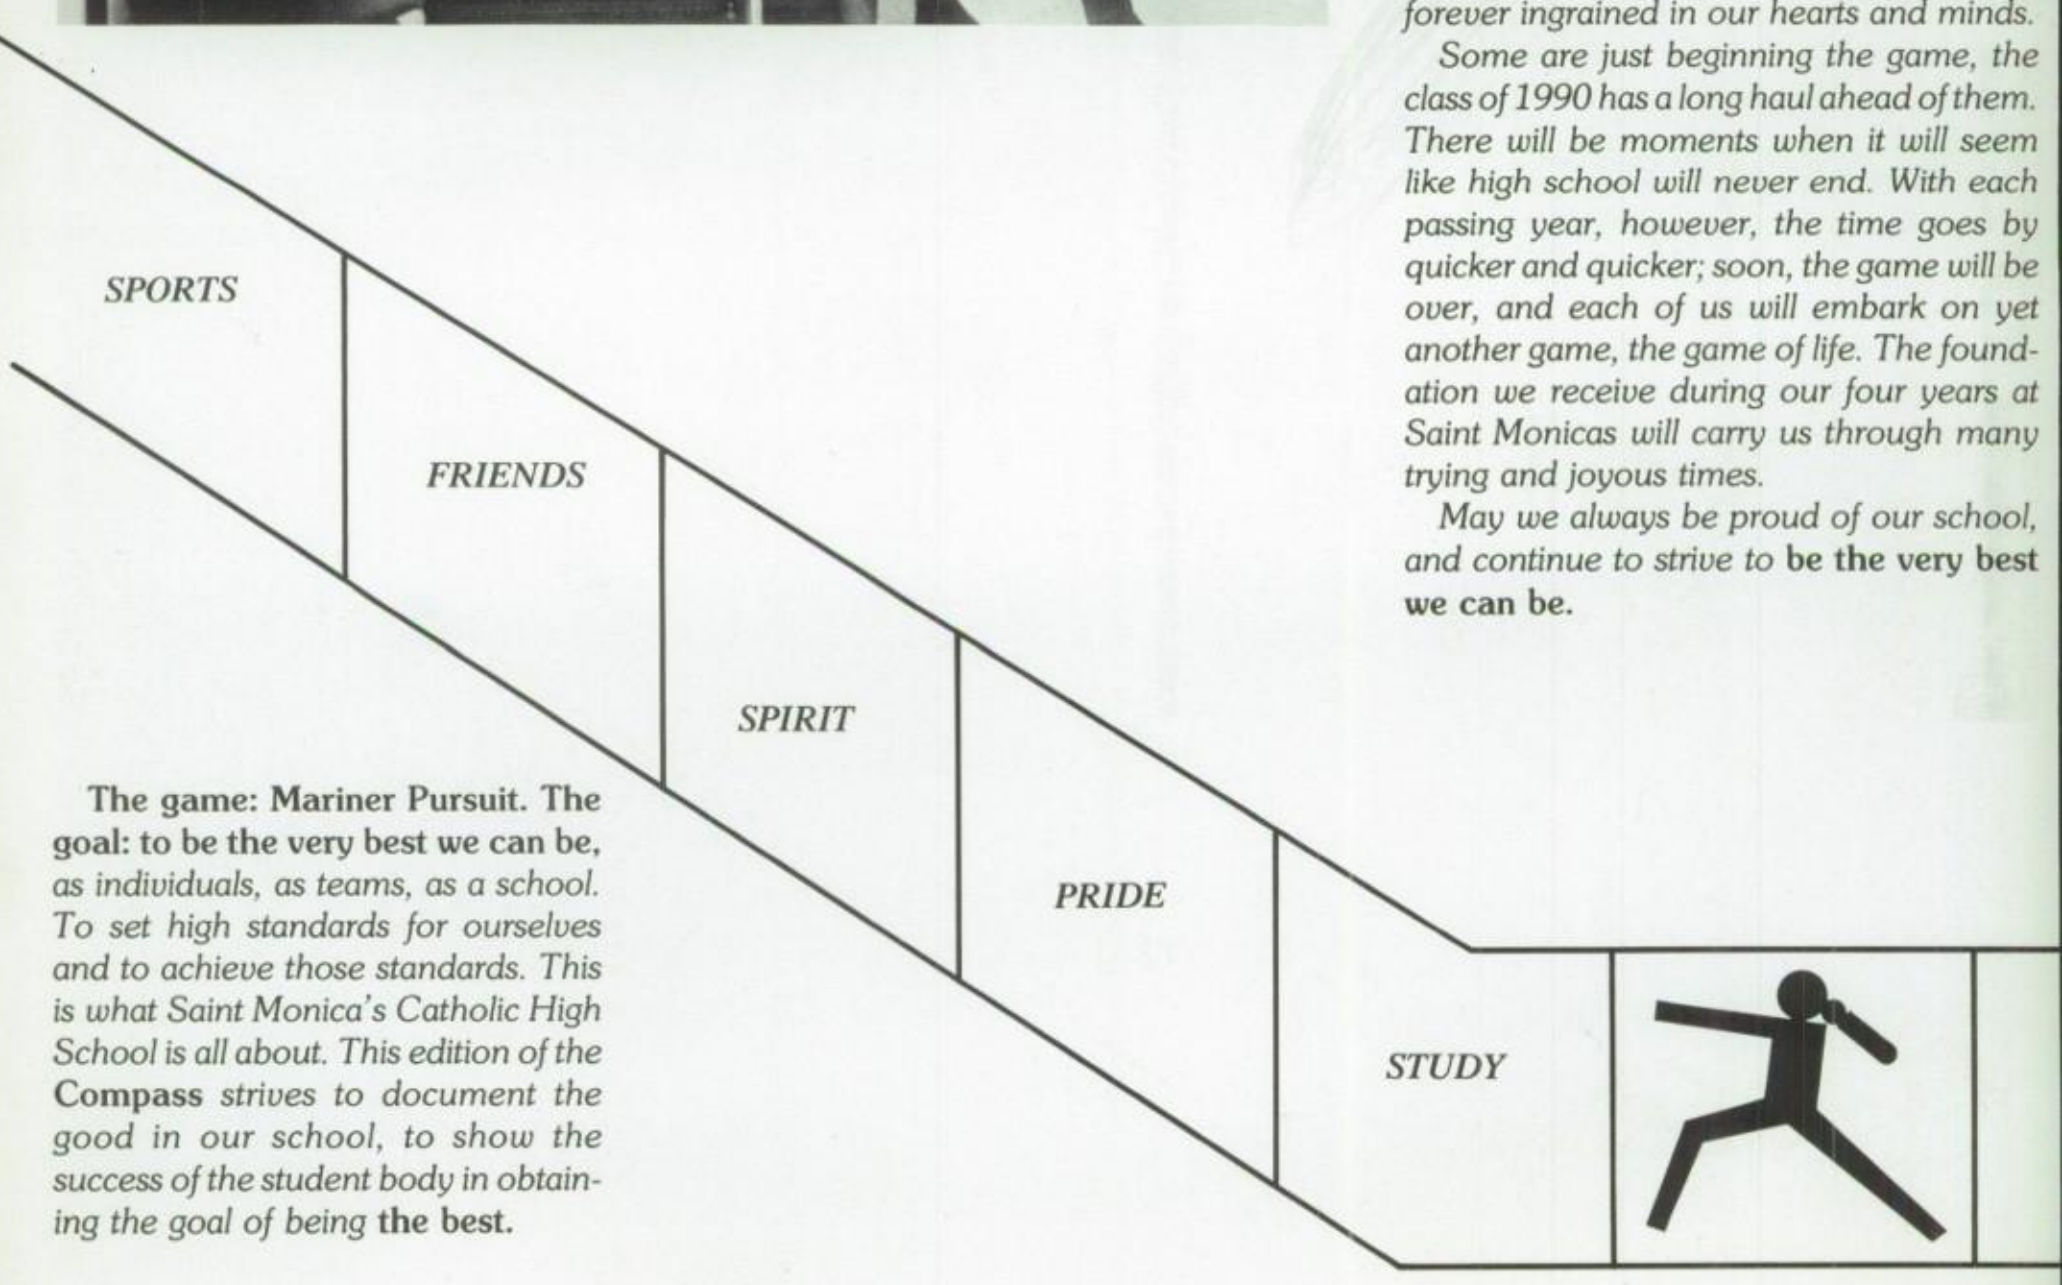
Right: *students join hands at first student body Mass as a symbol of the unity that is* **Mariner Pursuit. Below:** *Seniors look at college applications and ponder the possibilities . . .*



The 1986-87 school years promises to be one of positive change and personal growth. The building of a community is what **Mariner Pursuit** *is all about. Through it all we will have high points and low points, but the experiences of 1986-87 will remain forever ingrained in our hearts and minds.*

Some are just beginning the game, the class of 1990 has a long haul ahead of them. There will be moments when it will seem like high school will never end. With each passing year, however, the time goes by quicker and quicker; soon, the game will be over, and each of us will embark on yet another game, the game of life. The foundation we receive during our four years at Saint Monicas will carry us through many trying and joyous times.

May we always be proud of our school, and continue to strive to **be the very best we can be.**



The game: Mariner Pursuit. The goal: to be the very best we can be, *as individuals, as teams, as a school. To set high standards for ourselves and to achieve those standards. This is what Saint Monica's Catholic High School is all about. This edition of the* **Compass** *strives to document the good in our school, to show the success of the student body in obtaining the goal of being* **the best.**

Right, Heather Beeman *and* **Keri Johnson** *doing a scene from the spring drama production.* **Below, Eugenio Galvez** *serves as alter boy and leads the processional at the first student body Mass of 1986-87. Each person has a special role to play in the game of* **Mariner Pursuit.** *Each of us has talents and abilities that when shared make Saint Monica's a better place to be for all.*

Mariner Pursuit

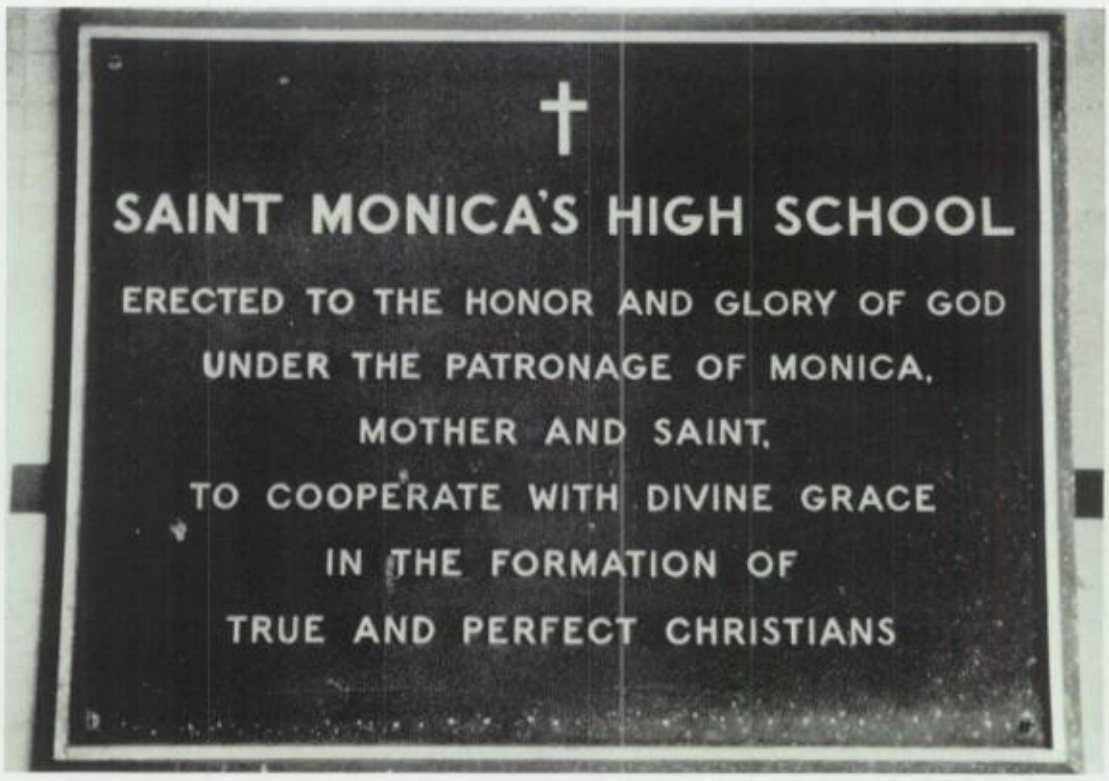
. . . the Pursuit of Excellence . . .

The Game Of Mariner Pursuit



SAINT MONICA'S HIGH SCHOOL
ERECTED TO THE HONOR AND GLORY OF GOD
UNDER THE PATRONAGE OF MONICA,
MOTHER AND SAINT,
TO COOPERATE WITH DIVINE GRACE
IN THE FORMATION OF
TRUE AND PERFECT CHRISTIANS

The beginning of a game is always filled with excitement. All participants involved begin 'the game' with certain hopes of doing well and simultaneously having fun. In September of 1986, we all began the game of **'Mariner Pursuit'** *with some sense of, but no certainy of what the coming months were to bring.*

When we entered the game of **Mariner Pursuit** *we were not quite sure what to expect, but we did have a preview. For those of us who had previously entered the game, we knew that Saint Monica's could only get better. For those merely entering, Saint Monica's was something new, something exciting. In the 'game,' we could move forward by making successful moves, or move back two spaces due to deficiencies or discipline notices. The choice was ours, and choose we did . . . to make better moves, to strive forward and not back. The game goes on. Through education and blooming friendships,* **Mariner Pursuit** *was something we could achieve, we could win at.* **Mariner Pursuit** *was a pursuit of self identity. Who are the* **Mariners?** *We, the students of Saint Monica's are all Mariners. Hopefully, whatever stage of the game one is at it will be a stage full of achievement, and* **pride,** *which is the essence of* **Mariner Pursuit.**

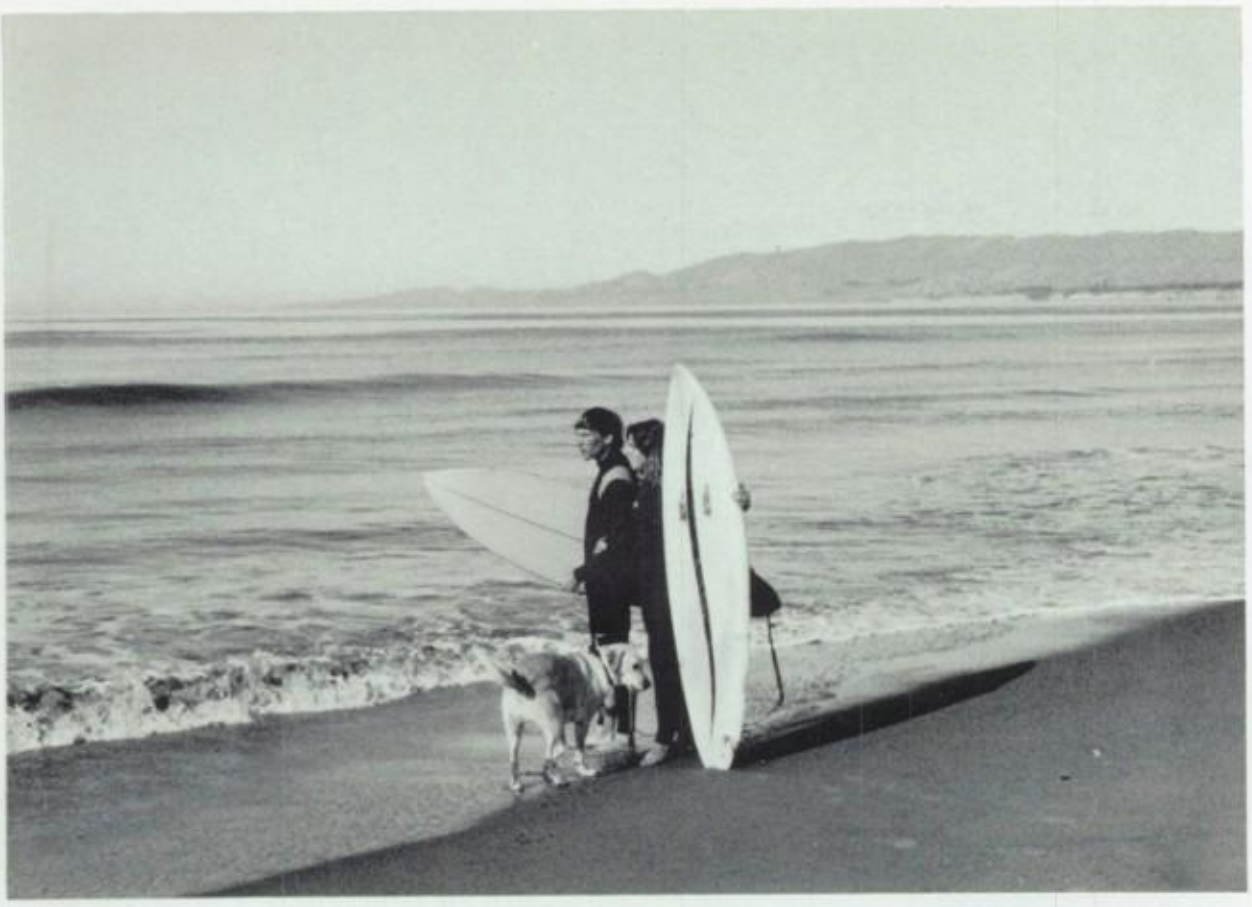
Homework	*Government*	*Transportation*	*Current Events*	*Homecoming*	*Fashion*	*Clubs*
Dating	*Summers*	*Hangouts*	*Parties*	*Music*	*Trends*	*Jobs*

Just what is **Student Life?** *you may ask: well, it's all the various activities, responsibilities, relationships, commitments, organizations, teams, dances, competitions, detention hours, fashion concerns, cars, dates, hangouts, parties, community service, family activities, job responsibilities, college concerns,* **Homework,** *everything and anything that makes up the majority of the time in the lives of the students of Saint Monica High School. The average student spends a* **minimum** *of 32 hours and 15 minutes at school each week. That is the number if one shows up at school at 8:00 am and leaves at exactly 2:35pm. It is rare that such a student exists. By far the bulk of the student body spend extra hours at school each week working on plays, team sports, special committees, and projects. Additionally, we have after school jobs, some working as much as 20 hours per week. Fifty-six hours a week are spent sleeping, 15 hours a week goes into homework, that leaves 44.45 hours a week for everything else that makes up* **A Student's Life!**

Opposite Page, Top Left: *Paul Everhardt, Tom Villa, Terrence Hunter, Bernardo Castillo, Alexandra Germani, Juan Reyes, Wendy Terino ham it up in a dry hot tub.* **Left:** *Max Headroom is a symbol of popular advertisement in the 1980's.* **Right:** *Gary Smith and Casey Wells 'dueling skateboards'* **Bottom Left:** *Merci Watson, Barbara Rachel, Sylvia Villsenor coordinating blood donor bags at a* **Red Cross** *blood drive on campus.* **Left:** *Sandy Chavez, and Espi Martin smile for yearbook class photographer Robert Sandoval.* **Top Right:** *Irene Diaz and Laura Spooner sample the goods at the International Carnival candy apple booth.* **Middle Right:** *Merci Watson displays the ASB Santa Grams to our Camera Man . . .* **Bottom,** *Break time for Rainer Quesada, Bart Zefras, Jaiver Carillo, Pat Verge, Eric Bomberger, Pabloa Moreno.*

Many students complain about the time they have to put into getting an education. What they need to realize is how quickly these days will pass and they will have to work 40 plus hours a week, raise a family, and still try to find time for a spouse and their friends. In many ways these are some of the freest and least complicated days of our lives . . . In other ways though, the teen years are years of turmoil and difficulty. Not all things are simply and easy. Learning to develope good relationships is a lesson that comes from the school of hard knocks. We make mistakes, and have to pick up the pieces and try again.

Top-Left: *We see Randy and the Stokx family houseboating and waterskiing on Lake Shasta. On the* **bottom left** *Mr. and Mrs. Renner ride the waves of the cool blue Pacific Ocean in Santa Barbara.* **Below,** *is Ashlee Peterson smiling for the camera from the tropical paradise of Hawaii. (Also on this page we see the elusive* **Joe Mariner** *in silhouette enjoying the water diving and canoeing).* **Top-Right:** *The watery Renners again, on a quest for surf, while bottom* **right** *we find* **Jennifer Fuchs,** *senior, relaxing with a good book while she soaks up some sun on a family camping trip. (Again, we see the silhouetted* **Joe Mariner** *horseback riding and backpacking. My he gets around)!*



Summertime...

SPENDING WEEKENDS

Weekends are a sacred time for students. It's a time when they can spend some time with friends in and out of our school. Sometimes we may not have our best friends in any classes, so the weekend is a great chance to catch up on what's happening with each other. Many groups of students spend it together at parties or at the nearby beach. At **LEFT:** *We can see that* **Christine Horne,** *and* **Georgina Suarez** *have been spending their weekends together at the beach for years. Sometimes extra curricular activities, such as putting together a yearbook, take up a lot of students' weekend time. Cheerleaders and athletes are two other groups that have spent many a weekend at school practicing. THANKS FOR ALL THE EXTRA TIME AND EFFORT TO THOSE WHO DONATE THEIR WEEKENDS FOR THE GOOD OF THE SCHOOL.*

Some people like to spend the weekends away from home. RIGHT: **Randy Stokx** *and* **Jennifer Espinoza** *chose to spend part of the weekend on the slopes.* **BELOW: Michele Hooper, Mary Lavin,** *and* **Denise Zacky** *chose not to go away, but spent it at home doing whatever it is they like to do.*

OPPOSITE PAGE, CLOCKWISE: *Many people chose to spend their weekends in different ways. If you're like* **Michelle Monroe** *and* **Malanna Marioneaux,** *you may chose to spend it in cognito. Or maybe side by side with a good friend like* **Ruthy Macias** *and* **Rosie Escalera.** *Are you all smiles like* **Alicia Gotsis, Jennifer Pinzon,** *and funny faced* **Andrea Hentchell?** *I bet you spend it acting like Joe Mariner as does* **Maria Ibarra!**

Preparation for the Junior Ring ceremony is no quick and simple matter. The Junior Class Council, Moderator, and various other helpers put long hours into the program, decoration, and slide production that made **"Together in Paradise"** *one of the nicest we have seen in some time.* **Top:** *Mr. DePolo welcomes the Juniors and their friends and family to* **"Together in Paradise."** **Above:** *The crowd mingles after the rings ceremony is over.* **Right:** *Terrance Hunter escorts Junior ladies while Fr. Brelsford congratulates all and distributes the rings.*

STUDENT BODY DANCES

ABOVE: *Freshman Kent Jensen argues with himself over whether or not to ask her to dance, while Candice anxiously awaits his request.*

Having dances is one of the biggest opportunities for a class to make money. But it's not all that easy. It takes weeks of planning and a great deal of dedication in order for a dance to be a success. Often the sponsors will plan a bunch of activities to promote the dance as well as raise some money for the decorations and DJ. An example of this was the week before the Junior/Senior sponsored dance. The theme was Hawaiian, and in order to promote it, the class councils planned events like a frozen banana sale, a Hoola-Hoop contest, and a few others. This enabled them to buy a lot of good decorations beforehand.

Good successful dances are good for the school because they give money to the needy organizations on campus, and they provide a safe and fun alternative for the average student's weekend agenda. They are chaperoned by parents and teachers from the school.

Dress code ranges from dance to dance. Some are formal, some are semi-formal, and some are just casual. But we can't forget the costume dance! No matter how you dress, they're all a lot of fun.

ABOVE: *All is fun and games for Seniors Juan "Alien" Reyes and Michelle "Baby" Morgan at the costume dance.*

LEFT: *Gene Bock doesn't know if it's the shorts or the legs that's attracting the girls. What do you think?????*

Dances are always popular with the student body at Saint Monica's but the musical taste and the mode through which that music is put out chances almost yearly. Some years, the **live band** *is highly sought after. Bands were the usual at St. Monica's dances through out the 1970's and on into the early 1980's. In recent years, however, students have began to prefer the clear, high quality sound of electronic* **DJ's** *who basically* **MC** *the evening while playing records and tapes of the various popular artist.*

Students of today tend to prefer the **DJ's** *because of the variety of music styles the student body likes. One student told us that the big problem with bands is that they generally play only one type of music well* **(heavy metal, punk, disco, reggae, R&B, funk . . .)** *and everyone else feels irritated and doesn't like the music being played. Many feel that by having a* **DJ** *all types of music can be played in the evening and that everyone will be more satisfied with the dance as a whole.*

Above: *Alex Germani, Juan Reyes, dance to DJ music at one of the early dances in 1986-87. Dances tend to be very popular with the freshman and sophomore classes.* **Above,** *several students ham it up for our camera.*

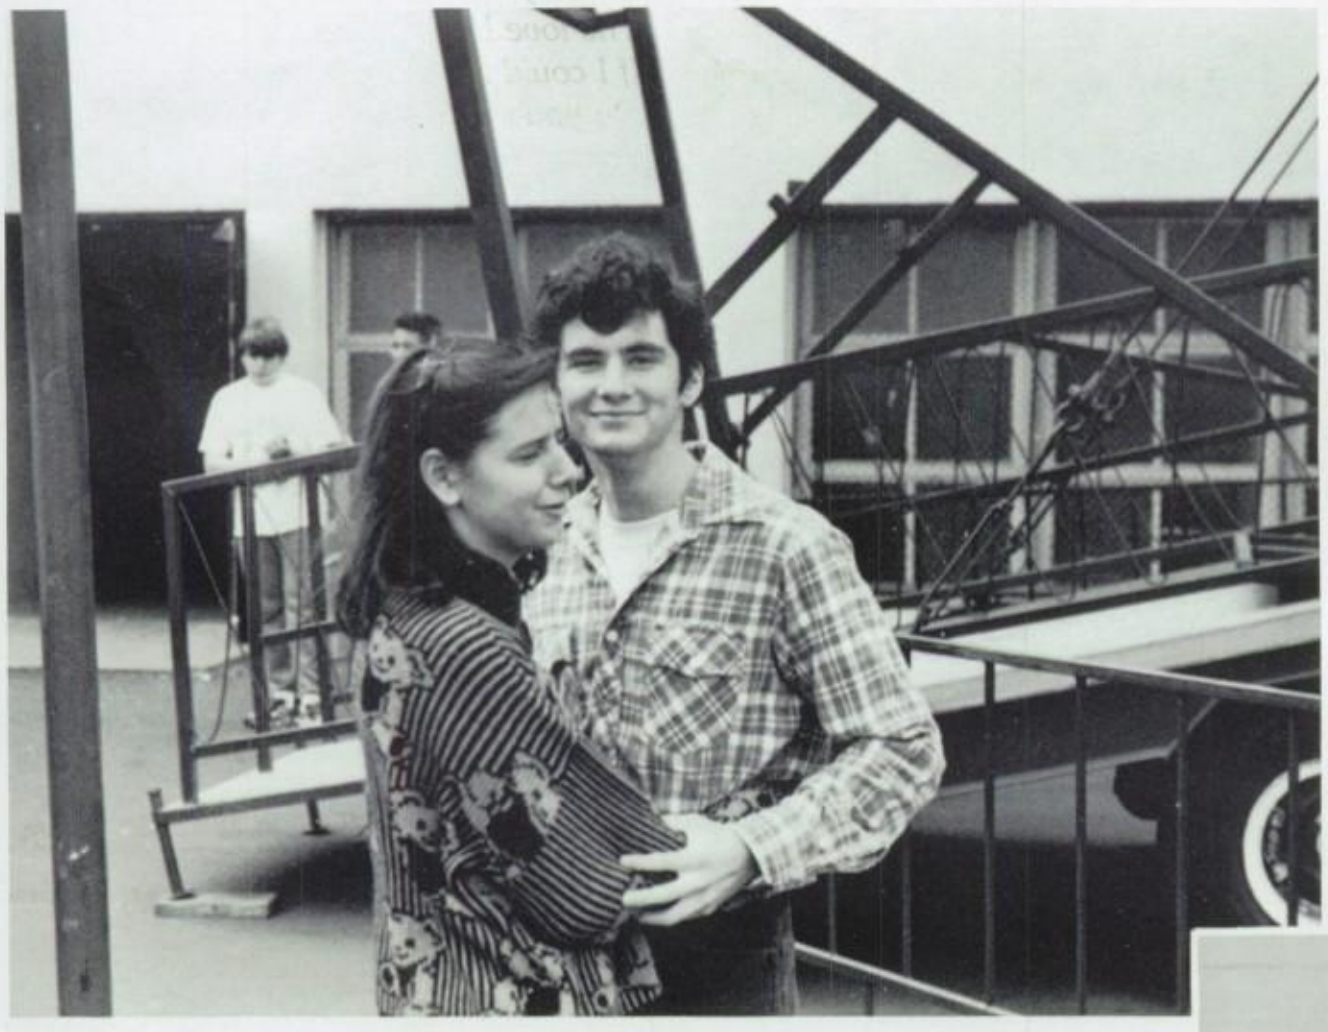
TOGETHER

You are my one and only love
And this I want you to know.
You mean more to me than anything
I don't even want you to go.
Loving you gives me happiness,
The kind I need each day.
And if sometimes I don't show it,
I love you in each and every way.
If sometimes I get jealous,
It's only because I care.
The love I feel for you is ever so rare
If I could have one wish,
Do you know what it would be?
For us to be together,
For all **ETERNITY!**

ABOVE: Karen Suy & **Larry Friedman** *join with* **Liz Shirinian** *and* **Dylan Tucker** *for a foursome of fun during lunch.* **BELOW: Jennifer Espinoza** *tells* **Randy Stokx,** *"Get used to posing, my family is picture happy!"* **RIGHT: Sherif Hanna** *gets a nice back-rub from his girlfriend* **Kim Hocker.**

High school pressures can really drive a person down, and it's great to have someone there to pick you back up again. Many of the students at Saint Monica find someone to accompany them through this stage of their pursuit. Although there are a lot of outside influences that seem to intrude on a good relationship, many are able to pull through the bad times and continue to let the relationship grow. It really helps to have the support of that person behind you, and they'll do anything to keep it that way.

BELOW: Adrianne Amador, *"Embrace me you fool!", and Senior* **Gene Bock** *gives in with a smirk.* **BOTTOM CORNER:** *Seniors* **Nancy Voets** *and* **George Rocca** *wonder why everyone is staring at them . . . "Put away your wallet George, it looks like a bribe!"*



Dating can be a hard thing for incoming freshmen, and new students, but Saint Monicas is such a small school that it make it really easy for you to meet people around school. In addition, the many extra-curricular activities that take place in our school give us yet more opportunities to get to know new people. N.C.O.C.'s (New Couples On Campus) can cause a lot of gossip from time to time, but generally the students and teachers at St. Mo's are very supportive. Friends, and even many teachers make themselves available for those times when you really need someone to talk to. That's what makes St. Mo's the school that it is.

SHOOTING STARS

I must live before I die;
A shooting star darts across the sky.
Gliding swiftly through the night,
Moving toward the guiding light.
Shining brightly as the sun,
Two stars together move as one.
It is one star, the star is us,
as against each galaxy we brush.
Holding hands to join the glow,
As two we falter, but as one we grow.
Burning with our own sweet fire,
Soaring together, higher and higher.

Above, *Eddie Ramon, John Cenzano, and Tanya Tucker hang out at Nutrition break . . . Most students have just enough time to grab a bite to eat and get to their lockers during this brief 10 minute reprise.*

Above, *Robert Sandoval, Suzanne Salazar, Adrian Amador, Pat Verge, Javier Carrillo, David Flaherty, and Bart Zefaras visit during the lunch break.*

Okina Swinski, Marybell Ortega, Adela Paez, Cynthia Martinez, Danielle Hernandez, all hang out after school before time to go home for the day.

Above, Heather Beeman, Sophomore, catches a few winks before rushing off to rehearsal. Many students participate in a multitude of activities ranging from sports, drama, pep, and academic tutoring which demand long hours of time.

BAAAAAPPPPPP . . .The bell rings signaling the longawaited beginning of **break.** *Quick conversations with friends, bathroom, food, lockers . . . Mayhem, pure and simple. All this, in a mere five minute passing period.*

Halls are crowded as students attempt to get to their next class **on time.** *Probably the worst congestion occurs in the* **west wing** *at the connecting stairs between the 2nd and 3rd floors.*

Most students consider the passing period just too short. Other prefer the shorter periods to extended time at the end of the day. Regardless, most students do manage to get to their classes before the tardy bell and avoid detention.

Below, *Eric Cummings, Leah Fields, and Helena Dupree, battle for position at the Coke machine. One of the nice food items on campus is the soda provided by the Campus Ministry.*

Lunchtime activities *go along with the closed campus policy in an attempt to make breaks more fun and interesting. Above, students take part in three legged races.*

SIX Periods . . .
WE NEED A BREAK

Above, *Rainer Quesada, Bart Zeferas, Javier Carrillo, Pat Verge, Rick Bomberger, Pablo Moreno, and Chris Mora combine lunch with studying.*

Many students take lunch and morning break time as an opportunity to let off steam by playing either touch football or basketball on the yard. Others take the time to do homework, catch up on reading, visit with friends, and just unwind. The school provides students with a snack bar which is operated by the Parish for both the high school and the grammar school students.

The food fair is generally pretty good, with such items as: pizza, salad, sandwiches, potato chips, donuts, and of course, the FAVORITE french fries . . . This year, the ASB began playing music during lunch on different days which made things a lot more pleasant.

Of all the periods during the six-period day at Saint Monica's the only one that goes all too quickly is lunch and break time. The average Lunch is 35 minutes with an occasional extended period due to a midday activity that ended quickly or class meetings that are concluded on schedule. Often lunch serves as a time for various group meetings that would otherwise have no consistent time slot during the week.

Homecoming '86

Princess Michelle Monroe

Princess Michelle Morgan

Queen Teresa Escalera

Princess Karen Newlove

Princess Merci Watson

The 1986 Homecoming celebration was a memorable experience for the twenty senior girls selected as candidates for the homecoming court. Of the Twenty semi-finalists, ten went on to be interviewed by a selection committee and five were ultimately chosen as finalists. These five represent the spirit and service to school and community associated with St. Monicas.

The festivities of the 1986 Homecoming game were accentuated by the glamor of the Homecoming court.

Each part of the activities meant another new dress for each of the ladies. Overall, the presentation was very well decorated and the speakers and Mass were exceptionally good.

The halftime presentations were well orchestrated and another highpoint of the weekend.

The Escorts for the 1986 Homecoming court were selectively chosen by their fellow classmates to represent the senior class at this special event. In black Tux: Randy Stoyx, Dan Kolhoff, Terrence Hunter, Sammy Ramo, and Jason Matthews. The White Tuxcedos represent the gym escorts: Michael Bambrick, Ivan Bravo, Juan Reyes, Kevin Mott, and David Barragan.

Traditionally, football players are gym escorts while other members of the senior class are selected for the field escorts.

This year Homecoming had good times and sad times. The game turned out to be a hard defeat, St. Anthony's victorious. The highlight of the evening did however prove to be the halftime field ceremony.

The total class of the event brought back a sense of pride and spirit to the Mariner crowd

as they watched the escorts in their black tuxes and the court in their elegant gowns. Overall, the entire homecoming weekend is an affair that active and alumni Mariners can enjoy and feel a great deal of pride for their Alma Matter.

We look forward to next years ceremony with great enthusiasm and anticipate that the football team will finally get the victory they so much deserve.
Keep the Spirit!

HOMECOMING 1986

Homecoming is an event that takes place in which a great deal of hard work and effort is put in by many of our outstanding students at Saint Monica.

The gym ceremony, which is seen by the entire student body, was headed by **Ashlee Petersen.** *We appreciate the many long hours Ashlee put in to create the display we saw that afternoon. Along with the help of* **co-commissioner Brooke Velona,** *the gym ceremony was a very memorable event.*

Other commissioners that worked hard to make the celebration special were **Kim Marshall,** *Field,* **Teresa Arrendondo,** *Dance, and* **Barbara Raichel,** *Mass. And let's not forget the 1986-football players and their coaches for all their hours of practice and* **hard** *work! Thank you all!*

Gene Jackson, addresses Saint Monica at the gym ceremony as the spokesman for the football team. Spirit was strong as we geared up for the game against St. Anthony's.

Some vehicles are better than others, but

ANYTHING GOES . . .

Skateboards were banned from being used on Campus during the 1986-87 school year due to safety consideration. This didn't stop skateboarding from being a major means of transportation off-campus. Many students use their **skateboards** *in conjunction with the* **bus service** *to get where they need to go on time.*

Other popular alternatives to a car were the various Scooters available. **Honda,** *the maker of* **Spree,** *was the most popular. Scooters ranged in price from $350.00 to a whopping $1,300.00! In the long run, they were cheaper to maintain and run than a car.*

Two Wheel Drive *remains popular as a means of transportation and exercise. Two styles of* **bicycle** *were seen most frequently: the traditional* **10-speed racer** *and the more* **trendy cruiser.**

Jeeps and Mini Trucks remain popular car choices for guys while the girls tend to favor cute compacts. Some lucky students were able to have new cars. The average Toyota in 1987 runs approximately $16,000.00 new, and remains a popular car in it's various models like: Celica, Cambrey, Corrolla. Other popular small cars are:BMW, Hondas (Civic, Accord, CRX), VW (BUG, RABBIT), and recently the American made auto seem to make a comeback with the compact Chevrolets. Jeeps and the Susuki mini-jeep were very popular.

The bottom line is it really didn't matter what kind of car you got, the key was to obtain some kind of car for transportation for you and your friends.

The BIG BLUE BUS remains a faithful standby for students to get back and forth from Saint Monic's. The #3 is a popular route servicing students who live in the Venice area. RTD is used by students who live more east, traveling Wilshire Blvd. Both have student rate and passes.

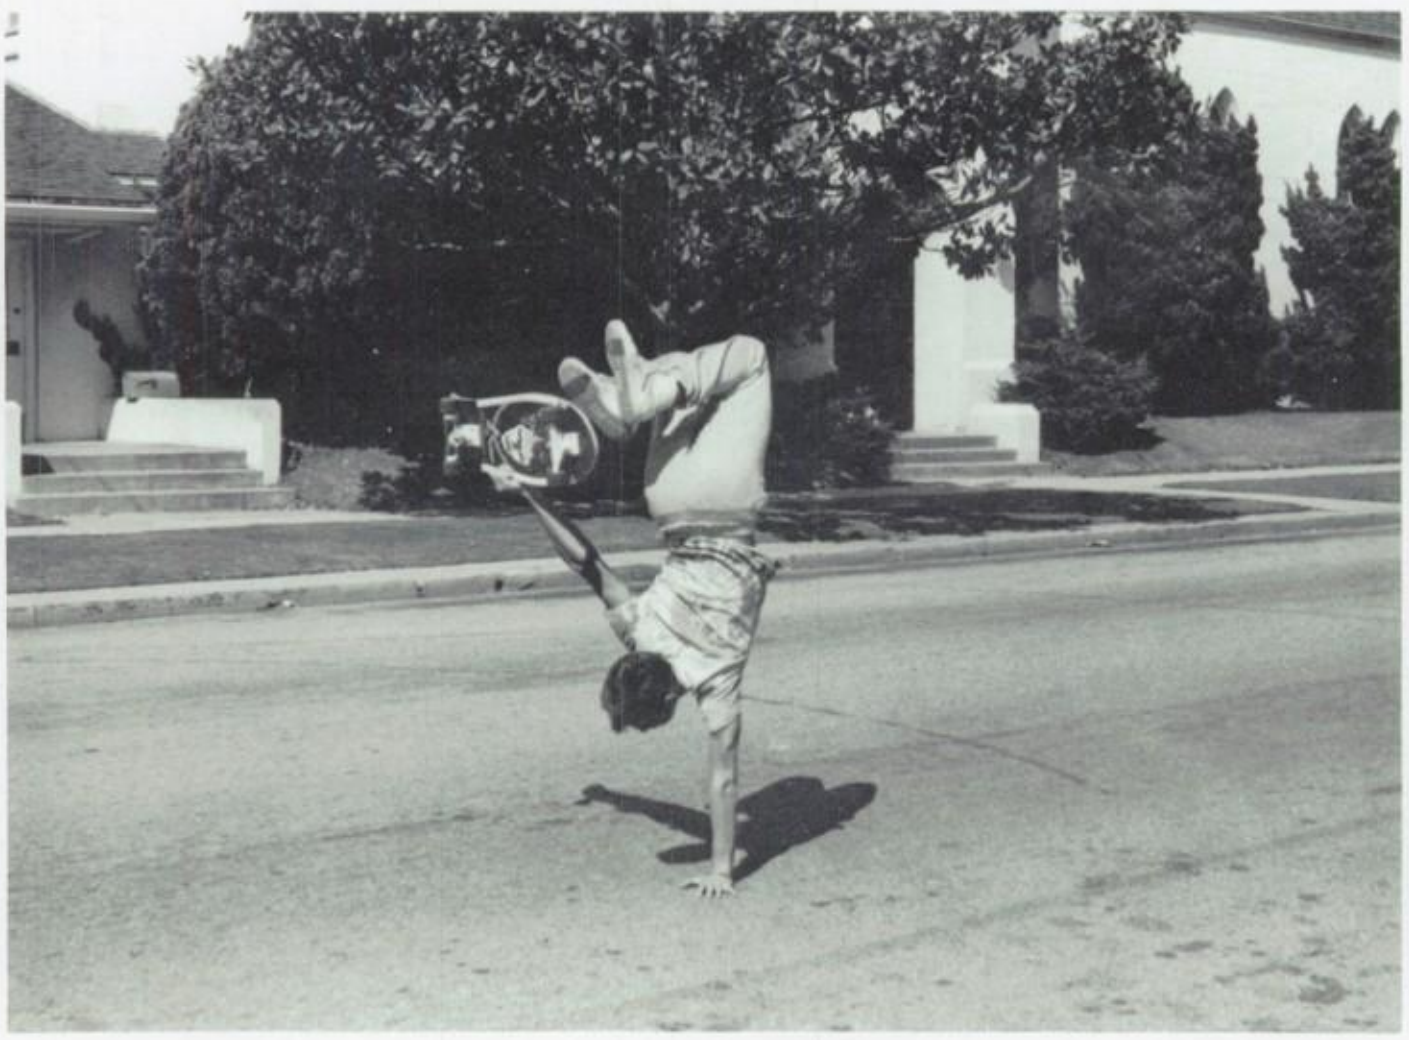
Everyone knows that the shortest distance between two points is a straight line. But the available mode of transportation makes the **real** *difference in getting from point A to point B quickly or even getting there at all.*

One of the quickest ways to get around was in a car. However, those under the age of 16 were often out of luck. "I usually get a ride with someone to and from school, but sometimes I have to depend on my Mom," stated one freshman we interviewed. When there is no one to transport the under 16 crowd, often the students find themselves just plain stranded.

For most, reaching the age of 16 made the problems of transportation a little bit easier. "Once I got a license and use of a car, I could be more involved in school and the activities," said a junior boy.

Cars are better for dating too. "Once I got a car it was a lot easier to date. I could go and pick the girl up, meet her parents and all." Another student said on the dating issue, "I don't get in trouble or get my date in trouble for not getting home on time now that I drive. I used to have to get someone to take me home on time and sometimes that didn't work out well."

The key seems to be having some form of **reliable** *transportation to get where you need to go. Whether you have a bike, skateboard, car, motorcycle, scooter, or make use of THE BIG BLUE, you need to count on the chosen form of transportation arriving on time, working properly, etc., so you can plan your departure times and get where you need to go!*



Sometimes things don't turn out the way you plan... Sometimes you just don't realize that they do.

Noel

Noel

It's Christmas Time In The City. . .

Christmas *is a magical time, full of childhood memories of Santa Claus, stockings stuffed to the point of bursting, and an endless array of toys and games . . .*

Christmas is also a time of great religious significance as we celebrate the season of **Advent** *and prepare for the birth of the saviour,* **Jesus Christ.**

The glory that is Christmas **comes in the giving.** *Each of us, in our own way, give of ourselves to each other, our families, and our community at this joyous time of year. It is a time to give praise and thanks for the year we have been blessed with and to celebrate in the merriment of our friends and our good health.*

Not all are as blessed as we. For many, Christmas is the bleakest, most depressing time of the year. Those who have no families, no friends, find themselves at the lowest point possible at this time when everything around us reminds them of these missing parts in their lives.

The elderly, *who have lost their lifetime spouses and have children that live far away and cannot be with them over the holidays are also great sufferers of lonliness during this time of year.*

Parents *who have not got enough money to feed their children, let alone buy gifts, suffer a special heartbreak during the holidays when they see their* **child's** *tiny* **face not understand why Santa Claus didn't come to their house . . .**

The beauty of the season is in the giving *. . . We all have the opportunity to make the holidays a better place for the people mentioned above if we just take the* **time** *to* **give a little of ourselves** *and our time. Most charity needs workers, not necessarily lot's of money, although the funds are important too. We can* **visit** *a* **retirement community, work** *at a* **soup kitchen, campaign for Toys For Tots,** *the possibilities are endless, if we* **just give of ourselves** *. . .*

After all, **'tis the season'** *. . .*

Right, *Spanish Class students prepared and shipped out* **500 boxes** *of* **toy gifts** *to the El Salvador Earthquake victim children in an attempt to make their holidays a little brighter. Supervised by* **Mrs. Blackburn,** *the project was a great success.*

Another beautiful part of the Christmas Season is the music . . . Everywhere we hear the traditional carols that have been sung a thousand times for many generations.

The carols differ from country to country. The United States, being the 'melting pot' that it is has the privilege of being exposed to a large variety of traditional music.

Saint Monica's musical performance during the holiday season of 1986 was titled — "Christmas Fanfares & Carols." Ms. Suzank was the director of Coro Di Concerto, Rainbow Riders and Womens Chorus & the presentation was held on Sunday, December 7th, at 2:30 in Saint Monica's Church.

The musical groups and the student body held their own celebration before recessing for the Christmas break.

INTERNATIONAL CARNIVAL

The International Carnival is one of Saint Monica's biggest fund raising events during the year. This year it took place from Friday, February 27, to Sunday, March 1. It was host to a variety of activities, such as; Rides, Games, Dances, Raffles, and most of all, FOOD! There were several different types of food to chose from. A Mariachi accompanied the Mexican dinner, and Sunday ended with an international foods buffet with specialties from several different countries.

The yard was filled with attractions for all ages. There were six attractions for teens and up, and about five different rides for the little kids. Game booths surrounded the school and provided a variety to chose from. One was certain to find a use of their talents.

TOP: *Student carnival supporters enjoy a fun filled competitive water gun race.* **ABOVE:** *Juniors* **Dianne Drummond** *and* **Maria Ibarra** *try to figure out how the cotton candy machine works.* **RIGHT:** *To Senior* **Maria Palermo,** *"I hope you plan on sharing one of those churros with me!"*

RIGHT: *The annual St. Monica Drawing took place once again at the International Carnival. The winner of the Grand Prize, $3,000, was* **Mrs. Romanet.** *CONGRATULATIONS!!! The student who sold the most tickets, and therefore winning $200, was* **Andrea Hentschell** *with just under 300 hundred tickets. THANKS FOR THE EXTRA EFFORT ANDREA!*

Issues of Law and Ethics

*The Tower commission will help sort out the bewildering array of activities involved in the Iran-*contra *affair, some of which may have been illegal, others merely unwise. Here are the key subjects to look for when the report is released this week:*

ACTIVITY	LEGAL QUESTIONS
Trading arms for hostages Although Reagan claimed the arms sales were an attempt to cultivate "moderates" in Iran, the evidence shows that this was partly a cover story. Reagan repeatedly focused on the hostages. When he first approved the arms shipments, his go-ahead was based on a memo saying such shipments "may well be our only way to achieve the release of the Americans held in Beirut."	Using arms shipments as a bargaining tool with Iran may not have been illegal. Although it violated publicly proclaimed U.S. policy and arms-export laws, the President had the power to waive the laws by issuing a finding that the actions were in the national interest. But the commission is likely to be harshly critical of the hypocrisy and folly of this failed policy.

The America's Cup Challenge

The Iran/Contra Aid Scandal *becomes known as 'Iran-Gate' after the Watergate incident with President Richard Nixon in the early 1970's.* **White collar crime at it's worst** *. . . Inside trading in the stock market sends young businessman to prison.* **Stars n' Stripes** *beats the Australians and brings home the America's Cup.*

Associated Student Body Officers are, from left to right: **Top** *— Karen Newlove, Michelle Morgan, Sammy Romo, Merci Watson, and Junior Member, Maritza Ramon. Maritza held the office of Secretary 1986-87. Not photoed: Juan Reyes*

The ASB has had a productive and memorable year at St. Monica's in 1986-87. Things got off to a good start the first week of school with activities sponsored by the ASB to welcome the freshmen. In addition to many funny activities, the ASB sponsored a Welcome Dance and lunchtime music.

ASB has been involved in the organization of several important projects on campus. One activity that the ASB works hard to raise money for is the yearly Homecoming extravaganza. Money earned through the sell of **M&M's** *goes to this activity each year.*

The associated Student Body Officers were also busy modifying the school constitution this past year. Research was conducted comparing Saint Monica's constitution to that of other area high schools and some revisions were purposed to and then voted on by the student body. The result was the radification of a new constitution that went into effect in the spring.

Marisa Neri

Bertha Zepeda

Maria Palermo

Senior Class Council

The Senior Class council, class of 1987 consisted of **President,** *Marisa Neri,* **Vice-President,** *Bertha Zepeda,* **Secretary/Treasurer,** *Maria Palermo and the 6 homeroom representatives: Randy Stokx, Nancy Voets, Lisa Guarado, Sylvia Villasensor, Shani Myrick, Monique Johnson, and second semester, replacement Ana Robinson. Class moderator was Mrs. Teresa Coda.*

Senior Class council was responsible for planning and conducting class business, Grad-Nite, the Baccalaureate Mass, dances, bake sales, class meetings, senior privileges, and more. The primary function of the class council is to compile the wants of the class and act as a liaison between students and the administration in getting things planned and ran.

JUNIOR CLASS COUNCIL

ABOVE: *The Junior Class Council sponsored a unique lunch time sale. They called it the Waikiki Waffo sale. Curiosity brought in many customers.*

The Junior Class Council shoulders a big responsibility in planning and carrying out the Junior/Senior Prom each year. The 1987 Prom was held at the Riviera Country Club, on MAY 9, 1987. The theme was **AN EVENING IN PARADISE.** *The Prom is always a much looked forward to event, and we would like to thank the Juniors for all of their hard work in putting together the prom.*

The Junior Class council, led by **President Kelly Kehr,** *showed an enormous amount of spirit throughout the 1986/87 school year. They held up an unbreakable winning streak for the Pep Rallies, and gave the Seniors a run for their money in the Spirit Point competition. The unity in the class was evident with their consistent Hawaiian theme. If they can hold on to this unity, they will be one of the most remembered classes in recent years.*

BELOW: *The Junior Class Council consisted of: (Left to right) Athena Carillo, Jennifer Wardlaw, Margaret Wardlaw, Maria Ibarra, Kelly Kehr, Michele Hooper, Norma Armenta, Patti Kwon, Mrs. Paneno,* **(Bottom)** *America Ibarra, and Ruthy Macias.*

The energetic Sophomore Class Council has added much to Saint Monica in their second year playing **Mariner Pursuit.** *The sophomores are a hard working and articulate council who have tried to maintain class spirit and cooperation. Sophomores are often at a disadvantage when it comes to acquiring spirit points for games because not all drive and parents are not available to take them to after school events. What they lack in transport, they more than make up for in the area of spirit and leadership . . .*

SOPHOMORE COUNCIL

Above, The Sophomore Class Council: Top *Left to Right: Angelica Abiog, Liz Cook, Heather Beeman, Brigette Warren, Joann, Marilee Capawan,* **Moderator, Mr. DelaTorre. Below,** *left to right: Kim Watters,* **President, Elsa Jimenez,** *and Kim Hocker.*

Below, *Freshmen Class Council — Kathy Bailey, Chris Winn,* **Moderator, Mr. Gabitino,** *Andriana Barrigan.*

FRESHMEN COUNCIL

The freshmen Class council is the newest set of student leadership in the 1986-87 academic year. The freshmen traditionally do not elect a council until close to the end of the first semester. This allows students to get acquainted with one another and get a feel for high school life and time needed to maintain grades before committing to extra curricular activities. Once started, the freshman class has taken off and really become an active and respected part of the Saint Monica's Mariner Family.

DANCES *RETREATS* *FUND RAISERS*

Saint Monica's is an active school with many activities going on during the week and on the weekends. Each of the organizations on campus has a multitude of planned activities such as: dances, productions, fundraisers, games, concerts, fieldtrips, and various competitions with other school groups.

Saint Monica's has several Pep organizations that are largely responsible for the Mariner Spirit that carries us through our sport season. Our Drill team, for example is one of the finest in any of the halftime activities we have seen. Our flag team is also highly acclaimed, and our cheerleaders are inspirational and lead us in a variety of cheers.

St. Monica's also has an extensive choral department that goes to the elementary schools each year and encourages new enrollment.

There are also several different special interest clubs on campus that frequently sponsor dances and cultural events. Some of the clubs are: Nosotros, Key Club, Tennis, Thespians. Then there are the academic organizations: NHS and CSF. Requirements for these groups vary — with some you need only participate, while in others you need a certain GPA or a faculty recommendation.

Right: Wonder what senior tied these guys together? They probably are on their way to the pool . . .

Left: "Where is room 101 and **who** is Mr. Twoomey?"

As the school year 1986-87 begins, so does the game of Mariner Pursuit for the freshmen class of 1990. Part of Freshmen year is learning what is expected of a high school student. This can sometimes be a difficult lesson that slows down the rate a new player can progress around the board at. Part of what new students need to learn is that there is no pool on top of the West Wing!!! All kidding aside, freshmen year is full of personal and academic challenges as new students schedule classes, elect class council and HR reps, learn where their rooms are located, and get used to a greater amount of homework. Freshmen year is the only grade level when students are required to take a Physical Education class. Considering this, Mrs. Karen Renner and Mr. Mike Caniglia do their very best to make the time count. Both teachers have worked very hard to provide students with good physical education classes that help the students develop sport skills and condition their bodies.

Another part of freshmen introduction is the first week of school called 'Welcome Week' where lunchtime activities are conducted to try and introduce the freshmen to other students.

The year 1986 marked the 100th anniversary of the arrival and assembly of the statue of Liberty in New York's harbor. For a century, the Statue of Liberty has served as the official greeting point, welcoming immigrants to a new land and a new way of life in the United States.

During the year proceeding the 100th anniversary, Americans contributed to a renovation fund to repaint and repair the external structure of the statue.

Last summer, over the July 4th Independence Day celebration, a multimedia extravaganza took place in New York city centered around the unveiling of the renovated statue. Music, fireworks, and live performances rivaling those seen at the 1984 Olympic Games in Los Angeles were part of the celebration. There were: Chocolate Liberty Statues, Foam Liberty Crowns and Torches, Liberty Coins, even Liberty Iron-On Tee Shirt Decals in several popular magazines.

Many people felt the entire production was excessive and much too commercial.

The statue of Liberty serves as a symbol of welcome to people arriving in the United States of America. Many of our ancestors arrived in New York after long boat rides to pursue religious freedom, personal freedom, and a better way of life than the one they had known in their native countries.

In much the same spirit as the welcoming of immigrants to our country, we welcome the class of 1990 to Saint Monica's. May their years here prove to be positive and full of personal growth and fulfillment.

CAMPUS CLEAN-UP

Tami Stanfield
Kirsten Stanwyck
Cindy Stell
Georgina Suarez
Alain Tejada
Jose Tejada

Over the past few years one of the major problems on the Saint Monica Campus has been trash. During the 1986-87 school year a concentrated effort has been made by the students to clean up the school and improve it's overall appearance. Many feel that the way the school looks is a reflection of pride and Mariner spirit.

The time when trash is the greatest problem, is after lunch and break. Efforts have been made by the high school students to keep the debris under control, but we share our campus with the grammar school and are incapable of total responsibility. Many older students still feel that they can have a positive effect as role models for the younger students by taking the time to put their trash IN IT'S PLACE.

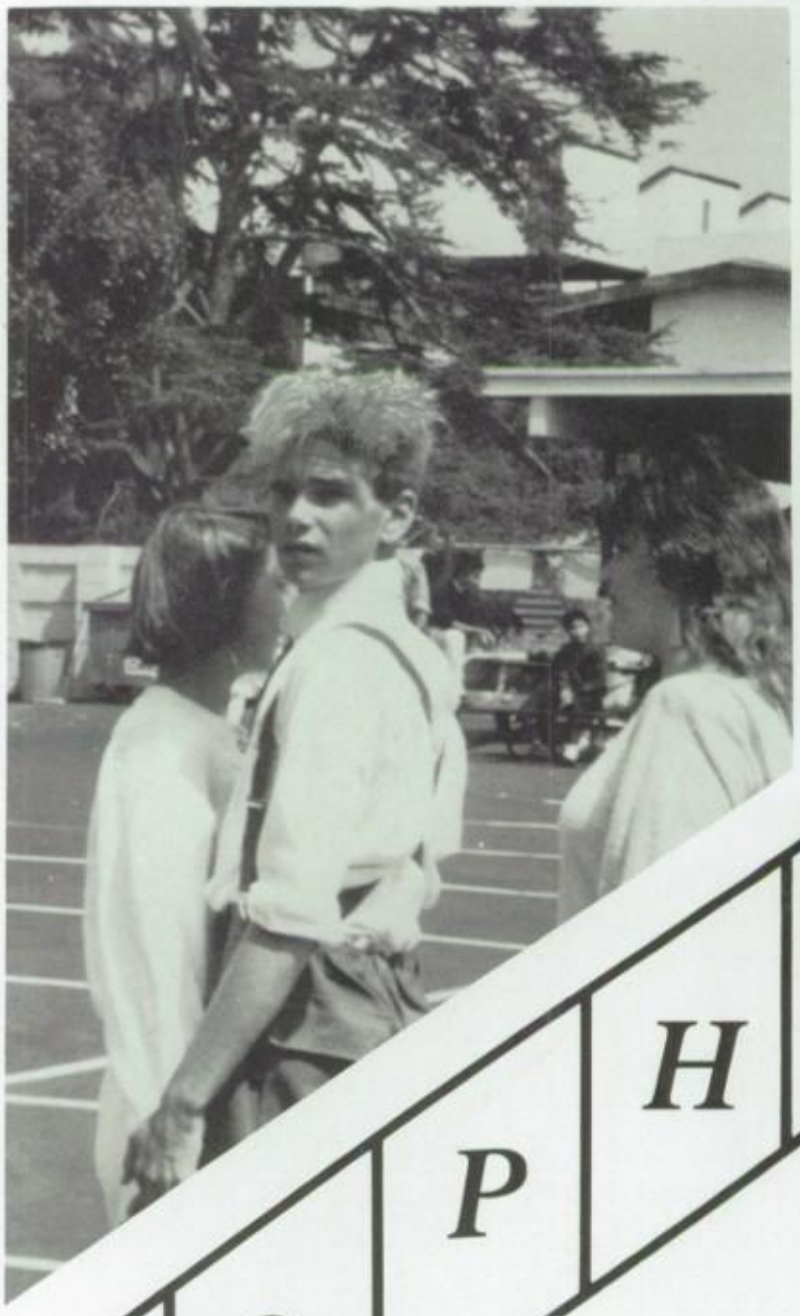
Sophomore pursuit is a section of the game that is lined with difficult decisions . . . what science class to take, to continue on with language or not, which sport to participate in, am I going to go to college? (what math class and what science class depends on this question) . . . People expect Sophomores to have a grip on things; to understand what is expected of them academically and personally. It is an important time in other ways also. Most people turn 16 during their sophomore year and that means they get to drive! You reach this point and you are too old to be babied but too young to be considered an upper-classman. Still, Sophomores provide the school with a great deal of it's spirit and overall positive environment.

Above: Mr. Rhine acts as Eucharistic Minister to Sophomore Michael Gallagher, Monica Schafer and Casey Wells at the first student body Mass for the 1986-87 year.



Above: Sophomore Heather Beeman in a scene from the fall play **Graduates. Right:** Sophomore Bill Carroll gives our photographer a look that says no candids, bud . . . Sophomores as a class take part in many of the activities available on campus, from sports to the performing arts program.

SOPH

*Sophomores Class of 1*9*8*9*

Sophomore year consists of several 'solids': Global Studies, English 10, and Religion are taken by all. Many other members of the sophomore class increase their academic load by taking a second year of foreign language, Geometry, and either General Science or Biology. There is little room for electives at this point in their academic career.

Being a sophomore is a little like being neither fish nor fowl . . . too old to be babied and let off easy, too young to always drive, date, etc. It is a year of personal growth and academic development.

The sophomore class council was an active one that let the class be known on campus. Dances were sponsored, bake sales conducted, and spirit points were obtained by pep rally conduct.

Above: Sophomores Jennifer Salazar, Heather Beeman, Kathleen Toomey, Deana Paciti, Nicci Riech, Kim Hocker, Tracey Denision, Eleanor Leventhal, Gabrielle Siemion, and Maria Berbero on a dress up day at Lunch. **Right:** Elsa Jimenez 'hangs out' from the bars near the west wing. Left: The Cosby Show, which airs on Channel 4, is a favorite with week night television viewers. The show has appeal for all age brackets thanks to the special humor of Bill Cosby. **Right: Cheers** is a favorite show focusing on the lives of a group of friends and associates in a pub setting.

Television remains America's favorite pass-time. The average household runs the television for 4 hours a day, and the average viewer watches a specific set of programs on a regular basis. T.V. shows range in topic from comedy, drama, and variety to the increasing catagory of night-time 'Soaps.' Some popular series in 1986-87: Hill Street Blues, Growing Pains, Family Ties, Night Court, Dynasty, The Colbys, Falcons Crest, Knots Landing, Highway to Heaven, and, of course, The Golden Girls.

One complaint with many of the television programs is the way they focus on the negative aspects of society. Few deal with the good side of man but prefer to dwell on the self serving aspects or the violence and crime of our times.

Television Turn-Ons

Below: Miami Vice, starring Don Johnson and Phillip Michael Thomas remained a popular favorite. **Right: Moonlighting,** with Cybil Sheppard and Bruce Willis combine humor and action.

Television has a profound effect on the way we dress, talk, what music we listen to, what cars and even professions we find attractive. T.V. can be a valuable learning device. Often on campus, acting classes will view one of the current shows for information on technique and dialogue while the religion classes will view shows for their content on moral and family issues.
A phenomena of the 1980's is the **night time soap,** *which has an addictive story line that keeps viewers waiting in suspense until the next episode.*
The 1986-87 season has seen a return of good comedy to the series circuit through the continuing airing of some of the better shows from last season, including **Moonlighting, Cosby Show,** *and* **Family Ties.**

Lunchtime mean
activity time at Sain
Monicas. With the clos
ing of the campus
seniors once mor
became visible partici
pants in the variou
lunch time activities
Many of the activities ar
designed and sponsore
by ASB. Says First Vice
President Michell
Morgan, "It is a difficu
task to get people in
volved in the activities
But once we get peopl
interested, things reall
liven up and everyon
has a lot of fun." Som
of the activities that hav
gone on this school yea
are: **Tug-of-wars, bob**
bing for apples, three
legged races, Bail
Florcorico dancing
Candy apple sales, In
ternational Food sales
Sleigh Stuffing, Mr. &
Mrs. Claus contests
and much more.
Another nice addition t
the lunch time environ
ment is music played b
the executive board
Top 40 stuff is the bul
of the selections.
Eating and socializin
remains the favorite pas
time for most. This yea
the tree in the center o
the yard was officiall

designated "senior tree" and has remained a joke among the class that instead of off campus they got a tree.

Many students have club meetings and council meetings.

Often, friendly games of basketball and tag football go on during the lunch break. One fine fall afternoon the Junior all honors guys challenged the varsity football players to a tag football game. The game was fun to watch and even drew a faculty cheering section.

A negative side of the lunch break remains the student bathroom situation. The majority of the students don't smoke or honor the rules not to smoke on campus. Some, however persist in trying to sneak a cigarette in the bathroom much to the distress of the non-smokers. Many students would like to see an area designated outside for students to smoke during breaks as long as the school has a parent consent on file. At least this way, the restrooms would remain usable.

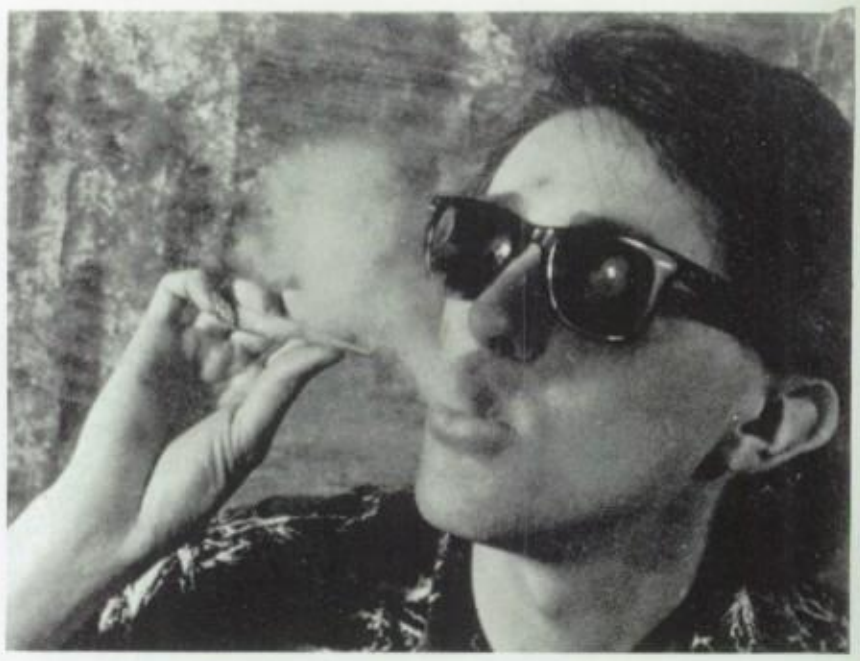
It is very hard to be immune to Peer-Pressure. Our friends have influence on how we act and what we do. Some Peer-Pressure is negative, but we have the potential to turn it around, to become a positive.
The thought of taking drugs and drinking alcohol excessively can be influenced by Peer-Pressure. Drugs and alcohol will not make your problems or misfortunes go away, they really only compound them. Drugs and alcohol have a serious effect on your character, potential, and personal health. If you know drugs and alcohol are wrong and destructive you have to stick to that idea and strive to accomplish your ideal. Friends pressure people to do these things because they want everyone to be on the same level as they are, to experience the same defeat. People who are heavily involved in substances are incapable of taking charge of their lives and obtaining the success they might otherwise enjoy.
To become a member of a gang is usually a choice made due to peer-pressure. The members of the gang **appear** *to be your brothers and sisters* **today** *but tomorrow they may lie to you, steal from you, even kill you. Negative associates breed negative actions. Group association is an important part of growing up and everyone wants friends, wants to belong. Individuals need to choose carefully where they invest their time and friendship.*



While no actual link between marijuana use and disease has been shown, immunological tests have produced some troubling results.

MARIJUANA ALERT

Frequent marijuana smokers may be at increased risk from viruses, foreign bacteria, and disease, warn researchers at the University of Illinois in Chicago.

When THC, or tetrahydrocannabinol, the psychoactive ingredient in marijuana, was placed into human blood samples, researchers David Ou and Mark Wiederhold noticed blood-cell changes that could suppress the ability of the body's immune system to combat disease.

What they observed were decreased numbers of proteins, called receptors, on the outer membrane of disease-fighting white blood cells. Without the receptors, immunologist Wiederhold says, the white blood cells can't identify or interact with other substances and thus might not be able to coordinate counterattacks against invader diseases.

Although no actual link between marijuana use and disease has been shown, the two researchers' findings not only cast a shadow across the frequent recreational use of marijuana but raise doubts about the medical advisability of using marijuana and its chemical components, known as cannabinoids, to prevent nausea in patients undergoing chemotherapy for cancer and to treat increased eye pressure associated with glaucoma.

Academic failure is another area where Peer-Pressure can act as a negative influence. Friends begin to experience difficulty due to boredom or lack of interest and they begin to encourage you to ditch class with them or write notes instead of taking notes. This amounts to a loss of concentration and lack of success. It is important not to lose sight of why we attend school. **To Learn.** *Knowledge is the key to future success. We all* **need** *our friends, but not ones that don't want the best for us.*

Sexual relationships are another area of pressure during teen years. Many individuals feel pressured to have sexual relationships out of fear that they will lose the affection and love of the boyfriend or girlfriend if they don't. This causes stress, a feeling of compromise, often great frustration and difficulty. Honesty is important here. Respect for personal choices is even more important. If someone **really** *cares for you, they will honor your decisions and not try and pressure you into things that you do not want to do.*

We can all find a way to turn Peer-Pressure into the positive influence that it can be. We can pressure our friends to do the right thing in their dealings with others, in part by setting an example with our own lives. We can help our friends to succeed academically by not trying to sidetrack them when they need to study. You can also put pressure on teammates to work hard and pull together. It is easier to succeed together than alone. If we all stay together the bond can't be broken. **This is Mariner Pursuit.**

JUNIOR

Pursuit

Junior status acknowledges upper classmen status in the game of **'Mariner's Pursuit.'** *By reaching their third year at Saint Monica's, the Junior class has established themselves as leaders on campus as well as devoted and spirited members of the school.*

This phase of the pursuit is marked by added responsibility, greater academic obligations, and leadership capacity in school planning. The Junior class and it's council is responsible for planning the Junior/Senior Prom, which is a major undertaking each year. Junior class also plans and carries out the Junior Ring ceremony held at the beginning of the school year. This ceremony marks the official transition of the Junior Class to upper class status.

Below: Athena Carrillo, Xochitl DeLoza, and Karla Soto take a minute out from their Spanish 3 class with Mrs. Blackburn to pose for our camera . . . SMILE ladies, this is for the book!

Above: Patti Kwon, Nicole Pickingpack, Eva Salazar, and Lori Navarro on Retreat in Valyermo. These Juniors show superior sense of style with their selections of sleep wear by 'E.F. Sweat 'n Frump Co.' Dormitory style sleeping quarters for guys and girls are part of the Retreat facility used most often.

Above: A group of Junior guys take to the hills and play war with sticks and stones on retreat. From left to right are: Michael McDonald, Eddie Bellinaso, Dan Bernard, Dominic Berbero, James Brennan, and Gerry Manzo.

— PSAT

"Ring" Ceremony

11 th

Left: Junior Marie DeLuna, complete with her Teddy Bear, waits to board the bus and leave on a retreat . . . Background, John Anderson and Jeanine Jackson.

By reaching Junior level playing status, students ear freer selection of classes and the choice of electives becomes greater when planning their schedules. Electives are either of the academic nature, taken as part of a college preparatory schedule or of the enrichment level, taken for fun, interest, or graduation requirement. Some elective choices are: Chemistry, Art, Yearbook, English courses ranging from Modern Playwrights to Major British Writers, Humanities, 20th Century History, and Economics, Drama, Speech, Chorus, Advanced Language studies and Student Body Government.

Junior Standing also entitles students to top lockers instead of the lower lockers they have had for the previous two years. And, Juniors start school at a later date than the underclassmen in September when buying books and checking class schedules.

Juniors tend to be one of the most spirited and visible groups on campus. Spirit tally competition is also tight between the Junior class and the Senior class. Upperclassmen manage to put the competition aside to work together for the benefit of the school when planning dances, retreats, lunch-time activities, and student government affairs.

Juniors Diane Drummond and Julie Napier cozy up to Senior friend Michelle Costinni during break.

Junior Karen Suy receives communion from Mrs. Catherine Conterno at the Homecoming Mass in November, 1986.

TESTING . . .

Junior year includes the taking of a test known as the PSAT. For many, the purpose of this standardized exam seems to be to promote early ulcers. The real function, however, is to prepare the student for the SAT exam which is used as a college admission requirement. SAT stands for 'Scholastic Aptitude Test.' The exam takes three hours, is multiple choice, and measures the verbal and mathematical abilities the student has developed over the years since the beginning of their education. The maximum score possible on the SAT is 1600 — and is used by colleges in conjunction with a student applicants GPA to determine admission eligibility. Test fee's are $11.50 for the SAT and the TSWE which is an additional 30 min. section of testing equating questions on the verbal and mathematical level. The test is given 7 times during the academic year, starting in October and ending in June.

This year, student body officers began the process of starting a **SADD** *chapter on Saint Monica's campus.* **SADD** *stands for* **Students Against Drunk Driving** *and is associated with the MADD organization. During the Drug and Alcohol awareness day, some very sobering statistics were disclosed: teenagers and young adults under the age of 21 make up 70% of those involved in alcohol related accidents that result in death. Alcohol related accidents remain the major cause of premature death in our age bracket in the U.S. today.*

The spokeswomen from SADD shared many distressing stories about the formation of chapters on other California campuses stressing how responsible our student body was in starting a chapter before we had a death. Most schools become interested after someone who goes to their school dies. Rarely does a school have the insight to try and prevent such occurrences through advance measures. Perhaps one of the reasons for so many drunk driving accidents is the many misconceptions about the effects of various types of alcohol. So often, people think 'it's only a beer,' or 'I only drink wine, it'll be O.K.' The truth is, an ounce of alcohol is an ounce of alcohol. One shot of **hard liquor** *has the same alcohol and same intoxicating effect as 12 ounces of beer or 5 ounces of wine. All of these represent a standard 'serving' of an alcoholic beverage.*

The legal blood alcohol level for someone to have and still operate a motor vehicle in California is .15% This is obtained by drinking 3 drinks in about 1-1/2 hours.

The point of all this is **responsibility.** *Drinking and driving don't mix . . . You endanger your life and the life of innocent others on the road and in your car. And the SADD message 'Not our students, Not our lives . . . '*

The photos of the car on the right are of a vehicle that was brought to campus for the week before Christmas break as part of SADD's efforts to remind students to have a safe holiday season. The car was driven by a 19 year old Venice guy who flew two blocks after hitting 2 telephone poles at over 102 mph. His blood alcohol level was .26. Lucky to be alive, he has lost his sense of smell, taste, has speech impairment and many other injuries.

Don't drink and drive and don't ride with someone who has been drinking. Take advantage of a taxi service or set up a teen ride car pool . . . LIVE . . .

GIVING

As Christmas approaches, our High School community gets into the spirit of giving. Different functions are carried out on campus that offer various groups in the area our aid in reaching out to those less fortunate than ourselves.

In 1986, Spanish classes at Saint Monica's collected money and purchased gifts to be routed through the local Red Cross for children that were victims of the earthquake in El Salvador. Overall, the classes were able to collect $250.00 which will provide Christmas care packages for 500 boys and girls in El Salvador that would not otherwise have Christmas gifts this year. Mrs. Cheri Blackburn is largely responsible for overseeing the collection of money and the purchase of the toys.

Another activity that takes place annually at St. Monica's before the holiday season is a Red Cross Blood Drive. Giving blood can be seen as a gift students 'hate to love, meaning that our hearts are in the giving but our fears and veins hate to do it . . . Despite the fear of many, the blood drive is generally very successful. It is very satisfying to those who participate to know they have contributed to a very needy and important cause.

Thirdly, Students and Faculty join forces and help the St. Joseph's Center collect canned and dry food goods for distribution to the needy in our own area. Toys are also collected and distributed to families that might not otherwise have enough money to buy gifts for their children during the holidays.

The beauty of the holiday season becomes magnified when we remember to give of ourselves. We are all richer for the various activities we have participated in during this special time of year.

Part of the function of Campus Ministry is to plan and carry out student body retreats. Retreats are conducted according to grade level and vary from single day retreats to overnight retreats on which students spend two days and two nights away from campus.

Overnight retreats are limited to Junior and Senior class members and are usually held at Valyermo, which is near Pearblossom. The location is private and beautiful. The area is high desert and gets quite cold in the evenings.

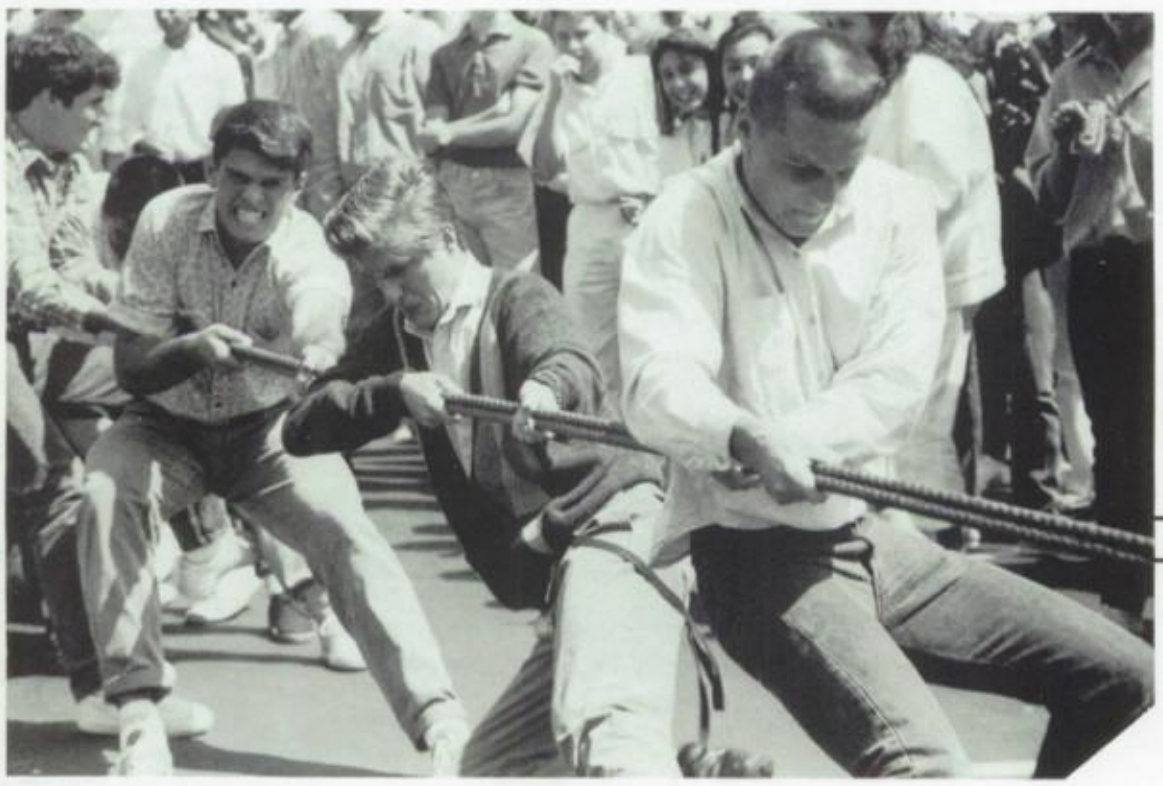
The purpose of a retreat is to remove the student from the normal everyday environment and, through directed activities and group discussions, provide us with the opportunity to focus on our relationships with God and one another.

Often we get so caught up in the everyday hustle and bustle we forget to take the time to reflect and think about God's plan for us. Retreats offer this time, relaxing under the stars, with good friends and laughter.

Retreats give us the chance to pursue our relationship with God . . .

Top: Adriana Casillas prepares to leave on an overnight retreat but looks like the bus left without her. **Above:** Margaret and Jennifer Wardlaw and Monique Goral thought retreats were to be restful and didn't expect to have to plow the fields for their dinner. **Above, right:** Juniors enjoy a hearty meal. **Right:** All aboard good old St. Mc's Bus for the trip to the desert.

Graduating Class of '87



Top, *ASB President,* **Karen Newlove** *asks: OFF CAMPUS* **NEXT** *WEEK?* **Above Left,** *Senior* **boys** *during the struggle of our last year at Saint Monica's. "This singing stuff is for the birds," chirps* **Eric Horst, left. Above, Brian Williams** *became a big man on campus in his senior year at Saint Monica's in more than one way! Nice to have you join us for the grand finale Brian!*

The Final Stage of the Game . . .

The concept of being a senior (finally) is a somewhat difficult one to grasp at first. After all, it seems like only yesterday that we were adjusting ourselves to the game of High school. Now we have mastered the game of Mariner Pursuit and as the first few weeks of school progressed, we had grown accustomed to our new roles as seniors. We quickly learned how to harass incoming freshmen, how to kick all underclassmen out of the "Senior" Lunch line, and various other responsibilities that accompany the title of Senior.

Along with the fun events that come with our senior status such as Homecoming, Prom, and Graduation, there are also many for serious things that occur. For instance SAT's and choosing a college. The score you get on your SAT could determine whether or not you even go to college. Many colleges and Universities demand excellence from their applicants and the fall of our senior year is mainly filled with the headaches and heartaches of college SAT and curriculum requirement.

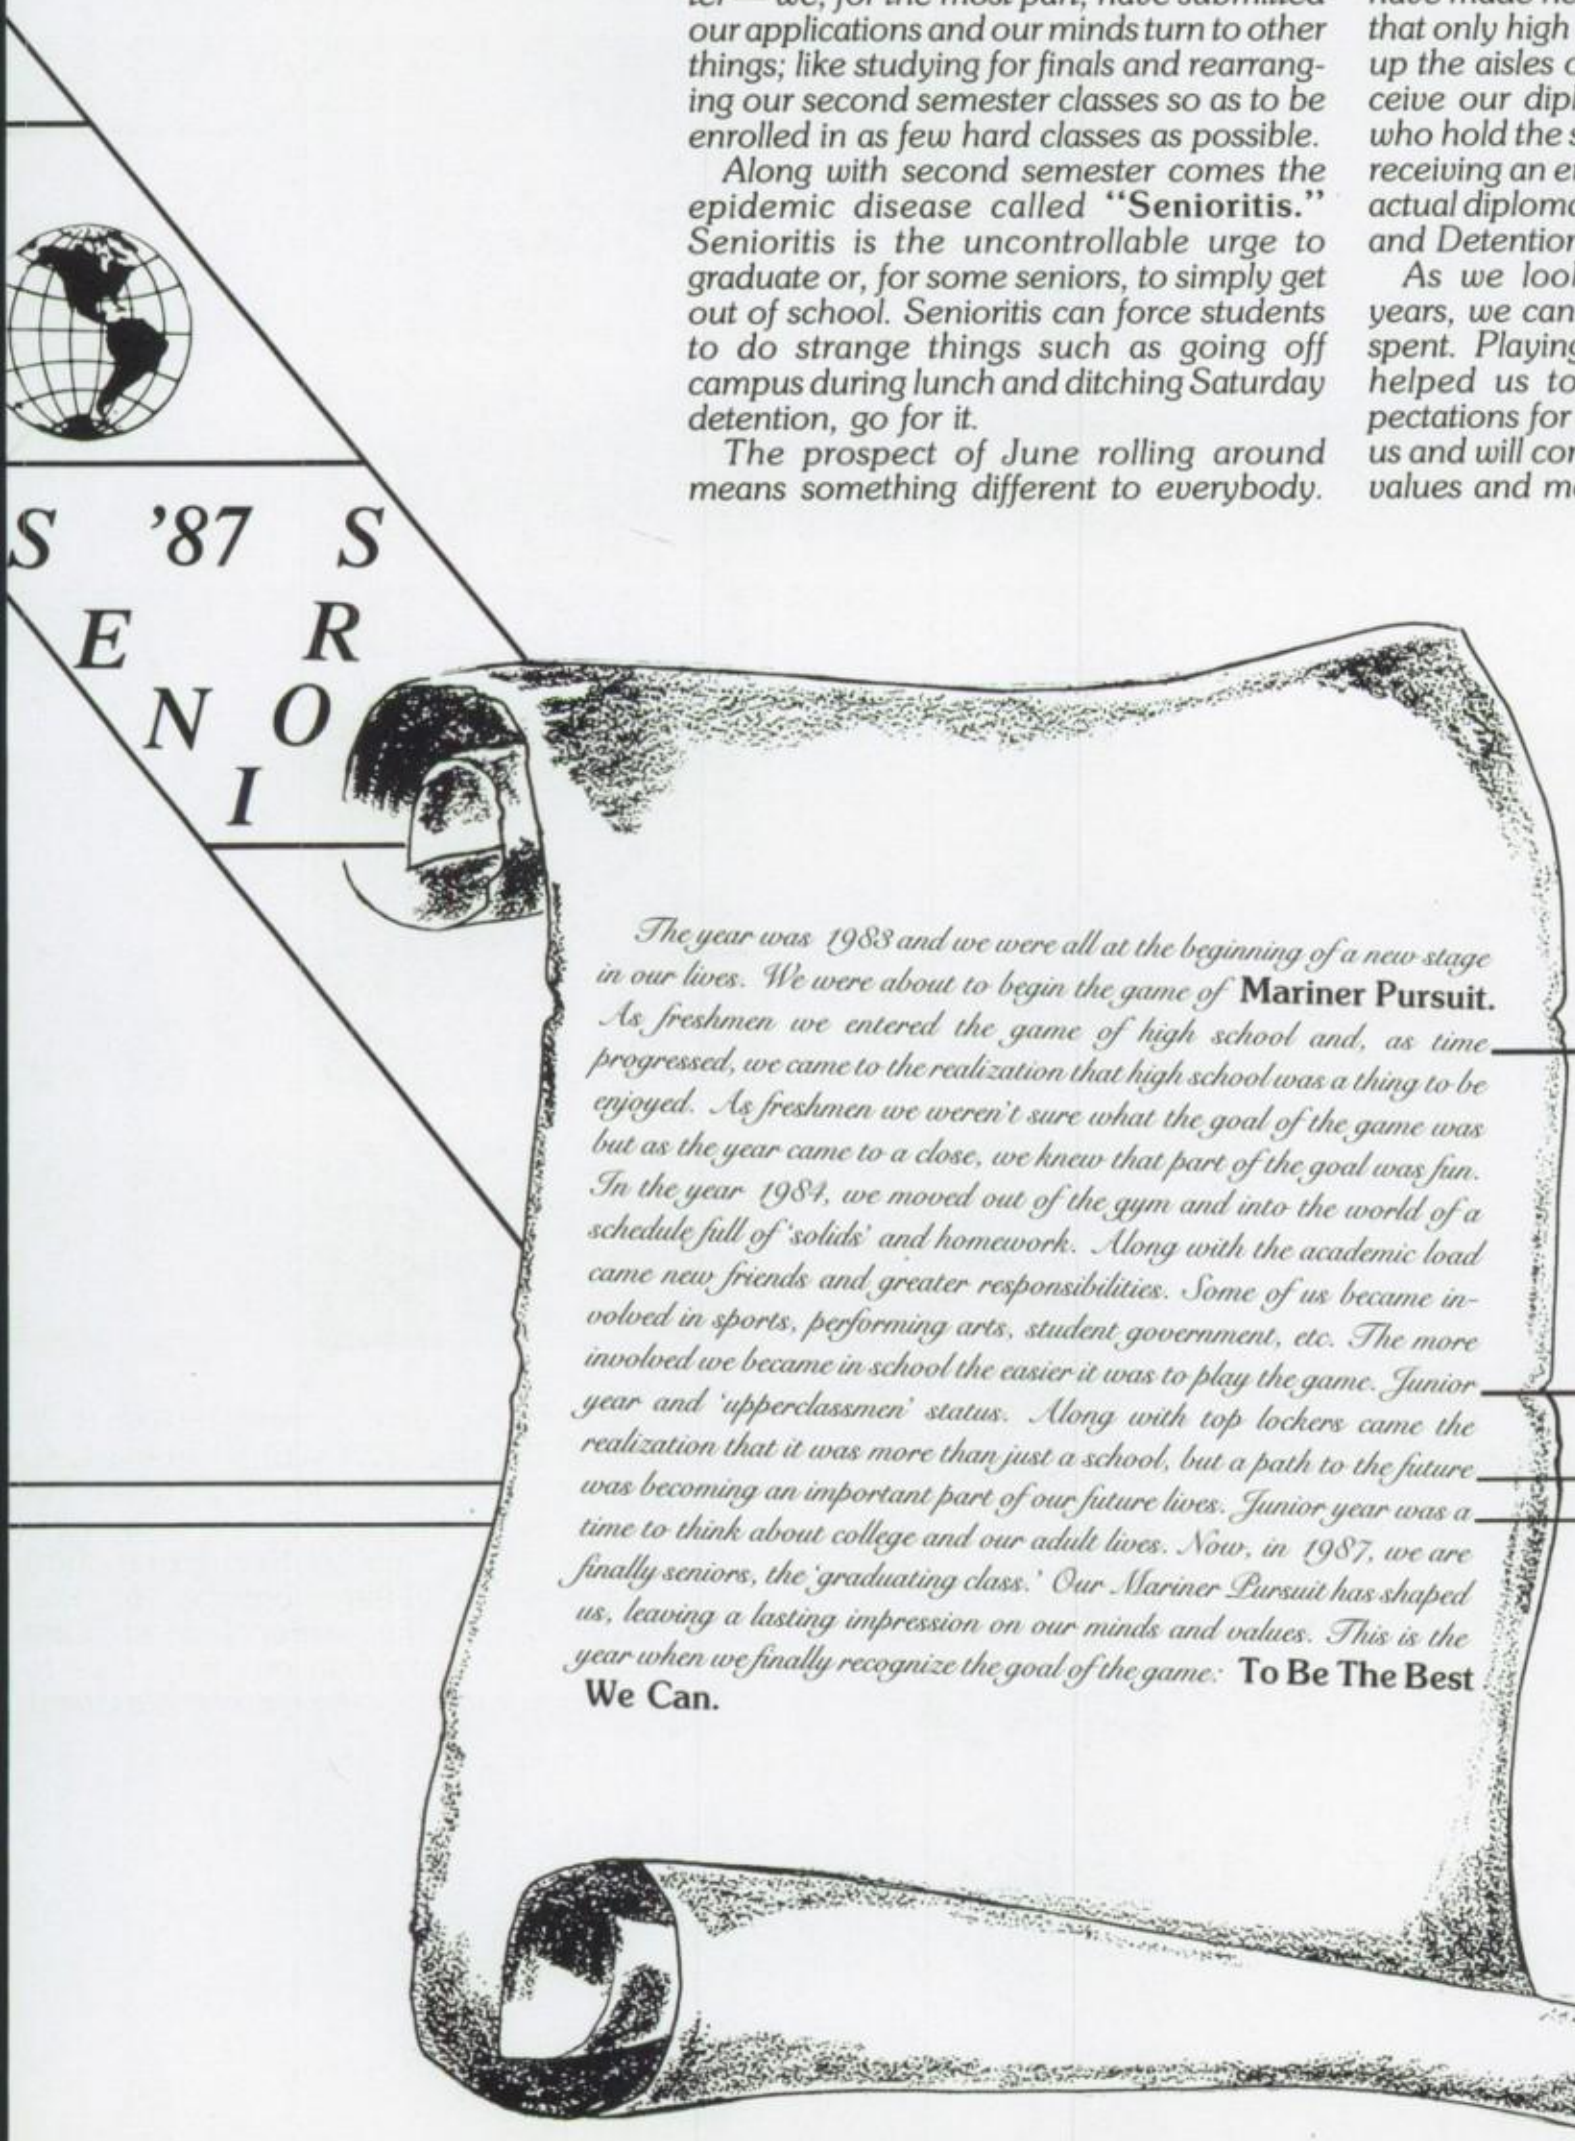
Once we have passed into the new year and January rolls around with the prospects of finals and 2nd semester — our last semester — we, for the most part, have submitted our applications and our minds turn to other things; like studying for finals and rearranging our second semester classes so as to be enrolled in as few hard classes as possible.

Along with second semester comes the epidemic disease called **"Senioritis."** *Senioritis is the uncontrollable urge to graduate or, for some seniors, to simply get out of school. Senioritis can force students to do strange things such as going off campus during lunch and ditching Saturday detention, go for it.*

The prospect of June rolling around means something different to everybody. Most or all seniors know what college they are attending and either have to study all the harder for their finals to assure their spot, or they simply float by and hope to receive a passing 'D' in the class. For the most part, our approaching departure from St. Mo's brings a sense of nostalgia. We are overcome by a feeling of sadness at leaving our alma mater accompanied by feelings of joy, excitement, and anticipation for the future.

At our actual graduation, we have a chance to take a glimpse at our past four years at St. Mo's. Four years in which we have made new friends, and grown in ways that only high school can do. As we process up the aisles of the Civic Auditorium to receive our diplomas, there are some of us who hold the sad knowledge that we will be receiving an empty encasement, void of the actual diploma because of Christian Service and Detention hours owned.

As we look back on our high school years, we can see that our time was not ill spent. Playing the game Mariner Pursuit helped us to shape our goals and expectations for the future. It has also helped us and will continue to help us to shape our values and morals.



The year was 1983 and we were all at the beginning of a new stage in our lives. We were about to begin the game of **Mariner Pursuit.** *As freshmen we entered the game of high school and, as time progressed, we came to the realization that high school was a thing to be enjoyed. As freshmen we weren't sure what the goal of the game was but as the year came to a close, we knew that part of the goal was fun. In the year 1984, we moved out of the gym and into the world of a schedule full of 'solids' and homework. Along with the academic load came new friends and greater responsibilities. Some of us became involved in sports, performing arts, student government, etc. The more involved we became in school the easier it was to play the game. Junior year and 'upperclassmen' status. Along with top lockers came the realization that it was more than just a school, but a path to the future was becoming an important part of our future lives. Junior year was a time to think about college and our adult lives. Now, in 1987, we are finally seniors, the 'graduating class.' Our Mariner Pursuit has shaped us, leaving a lasting impression on our minds and values. This is the year when we finally recognize the goal of the game:* **To Be The Best We Can.**

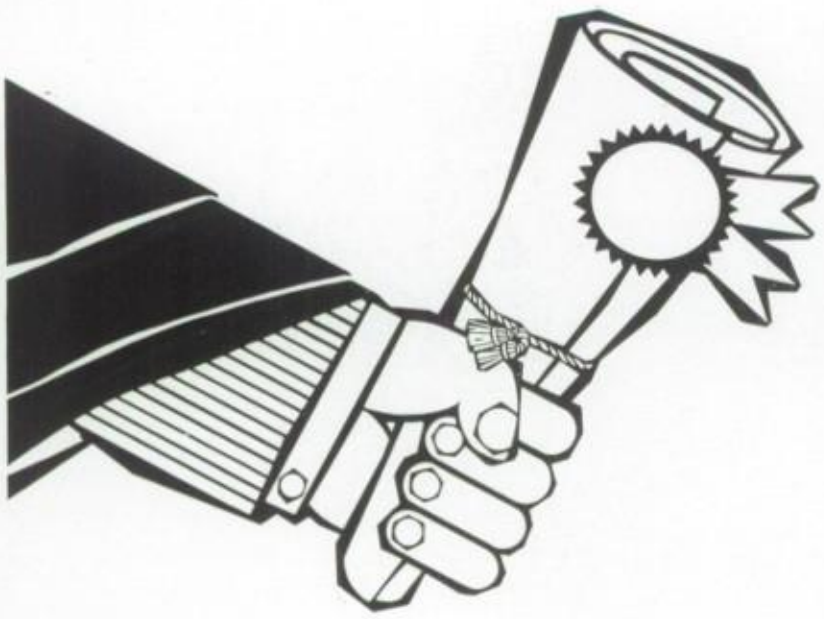
Best Performers, *RIGHT: Monique Johnson and Kevin Botham* **Most Active,** *BELOW: Marisa Neri and Juan Reyes* **Most Artistic,** *BELOW RIGHT: Julie Guzman and Brent Raymond*

Congratulations to all those who were chosen for the Senior Mosts. We'd also like to give a special thanks to those who took their time to vote. Senior Mosts give us a chance to recognize certain people for their outstanding characteristics. All of us have some certain unique quality, Senior Mosts just exemplify the best and the noteworthy in all of us.



Furthering your education after High School is something many individuals don't do. A fair percentage of people enter college, but an even smaller percentage graduate. College isn't meant for everyone, just those who want the challenge of a higher education. In the society we live in today it's difficult to get a good job with a college diploma. Without a college diploma it's even harder. What we can perceive from this is the world is becoming more competitive.

College cannot only help us learn much more, but it can also help us become independent and responsible. The farther you go away to college the more independence and responsibility you have. While you're in college you have to make important decisions on your own; this is a way to improve your reasoning skills. There is always room for mistakes. Instead of being depressed about your mistakes you should turn it around and learn from it.

Among the many steps in finding the right college is research. **BELOW:** *Seniors Brian Venneman, and Teresa Calderon look through the many college catalogs available to the students thanks to the Guidance Center, and Mrs. Dewedney.*

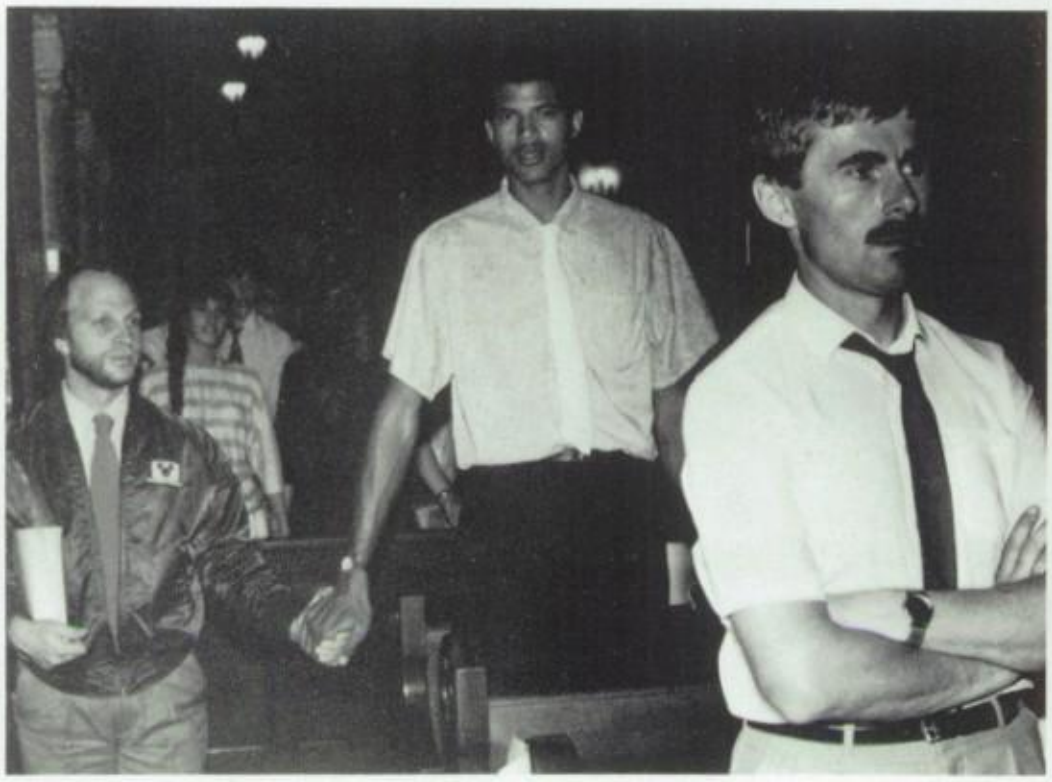
As we Seniors research for college, it seems as though we are suddenly bogged down with all types of literature. **BELOW** *are some examples of the catalogs, applications, tests, and scholarships that all have to be checked in to.*

Collectively, college can educate us in many ways. We can become socially educated, relationship educated, and educated in the classroom. College can be a good experience for anyone who wants to enter the wars of higher education.

After finding the college, the next biggest question is money. There are many scholarships available and they are right at the tips of our fingertips. Where? The Guidance Center. When it came time for financial aid, the bulletin board below was a very popular sight.

ABOVE *are some of the more popular colleges with Saint Monica students. It just proves to us that there is such a wide variety to chose from, and these are just a few.*

A very important step to take in picking a college, is taking advice from friends, family and counsellors on campus. That's just what the Seniors below are doing. Marisa, Adriana, Teresa, and Alex all discuss the possibilities.



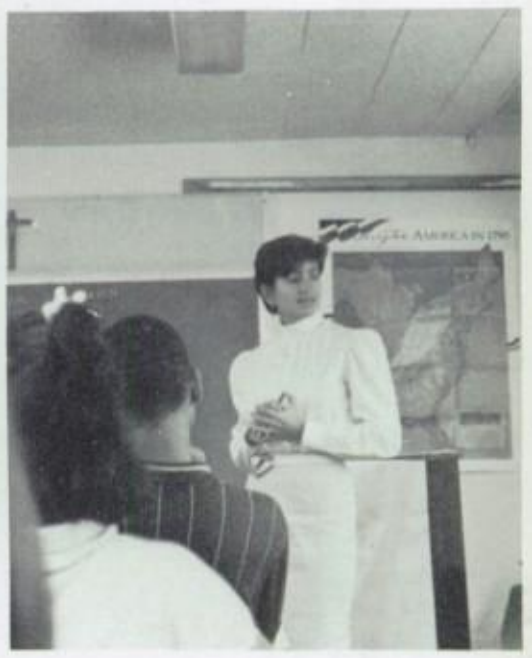
FACULTY

Pursuit

Mr. Dave DePolo portrays the **spirit of St. Monica** *and shows us how we Mariners really feel about St. Bernards represented by their principal Fr. Kidney.*

Saint Monica Faculty members Mike Caniglia and Dan Escalera during a football game. Most faculty members do more than simply teach their subject. Many coach sports that take up much of their after school and weekend time. Mr. John Dantona and Mr. Thomas Twoomey pictured with senior Brian Williams. Performing Arts is another area where faculty give all they have plus.

Vice Principal, Sr. Cheryl Milner pictured with senior Brooke Velona at the Homecoming Gym Ceremony. Homecoming requires hours of planning in order to run smoothly. We frequently forget to say thanks to those involved on the faculty level like Sr. Cheryl.



Above: Top, Fr. Hill and Msg. Duvall at a Mariner Football game. Faculty often go to games to show their support of students efforts in areas other than academics. **Below:** Mr. Jim DelaTorre.

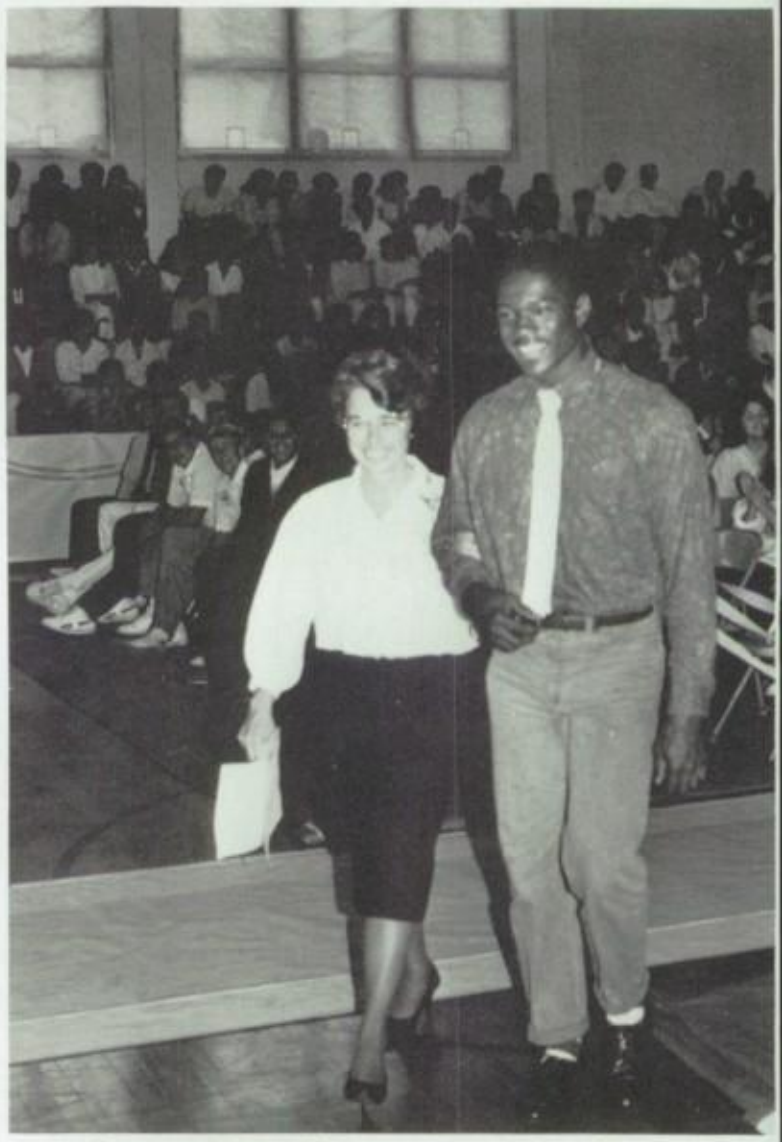
STUDENT TEACHER RELATIONS

Mr. Tom DeWitt, *teaching Senior English.*

Mr. John Dantona *supporting an International Foods Sale at lunch.*



Senior Ernie Camp *escorts* **Sr. Cheryl Milner** *during the Homecoming Gym ceremony.*

The faculty and students at Saint Monica have an exceptionally good rapore with one another. Overall, it is rare that a student and teacher have a conflict that cannot be resolved with honest communication. This stems from the respect and generally adult behavior of the student body. Most students are willing to listen to faculty members and try to understand what changes are needed to make the situation improve. It is the general conciseness of most faculty that the student body of Saint Monica's is by far the best they have ever been associated with.

Faculty and students are a very mutually supportive unit at Saint Monica's High School. The faculty are often seen at student functions such as: dances, sporting events, drama and choral presentations. Faculty are also willing to extend themselves and give their personal support to students during times that are personally challenging or difficult. This is not a one sided endeavor, however. Students also have an impact on the quality of the lives of the faculty. One teacher interviewed has stated that he is always growing through his association with his students. Most faculty will admit that the very best thing about the teaching profession is the contact with teenagers and the way this relationship keeps them in touch with the attitudes and events that are affecting youth. Come-On teachers! We **know** *it's the salary that keeps you teaching!*

Above, Fr. Brelsford *serves communion at a Student Body Mass while* **Mr. Courtwright** *has the Chalice.*

Above, Mr. DePolo *talks with* **Mr. Bellinaso** *after the Junior Ring Ceremony.*

Above, Mrs. Coda *offers emotional support to senior* **Randy Stokx** *while he donates a unit of Blood during the pre-holiday red cross drive.* **Below, Sr. Mary-Margaret, Mrs. Renner, Mrs. Mattos, Miss Regan, Fr. Hill** *and Mr. Mattos support our fabulous Basketball team . . . Remember* **The Mariner Mob.** *. . .*

Probably the nicest thing about the relationship between the faculty and students at Saint Monica is the Sense of cooperation in making the school the best it can possibly be.

Varsity Football

Top Row: Chad Canale, David Bambrick, Mario Cornachio, Jesus Moreno, Darius McClair, Sherif Hanna, Mike Bambrick. Second Row: Rich Garcia, Danial Bernard, Coach Rick Pedorias, Coach Danial Escalera, Coach Mike Caneglia, Kevin Mott, Steve Haynes. Third Row: Lalo Diaz, Robert Gallardo, Ernie Camp, Dylan Tucker, Peter Kerson, Kai Kaluna, Eugene Jackson. Bottom Row: Alex Sharpe, Ricardo Rubio, Lee Hawkins, Ivan Bravo, Juan Reyes, Danial Gamboa, David Barragan.

Although the season for the football team did not prove successful on the scoreboard, there were many advances in skill from each and every player. All players learned from their mistakes and were showing marked improvements by the end of the season. From the inferno of "Hell Week" to the practices held on cold rainy nights, every player was able to learn how to play as a team. Despite what has been said about the team, this year's was really one of the best in terms of enthusiasm, sportsmanship, and team playing.

The 1986 Football Coaches: *DelaTorre, Caniglia, Escalera, Pedroarias, Bennitez, and Guzman.*

J.V. Football

Front Row: Eddie Barajas, Micheal Wagner, Alfanso Medina, David Martinez, Moses Chavez, Alex Johnson, Jason Graff, Manual Duran. Second Row: Gilbert Fullerwood, Mike Agaiby, Julio Quinteros, Jesus Martinez, Chris Winn, Jason Renton, Bobby Cadena, Anthony Rodriquez, Young Yi. Third Row: Frank Neri, Adam Kaluna, David Ashford, Coach Huberto Benitez, Coach Mike Guzman, Coach Jim Dela Torre, Steve Felix, David Fuente, Jerome Richards. Top Row: Larry Friedman, David Gonzales, Payam Saadat, Kent Jenson, Mike Curutchet.

This year's J.V. Football Team did not have the kind of season they had hoped for. Although their record didn't show it, they did have a good team that is full of potential. They were unique compared to the rest. According to Coach Dela Torre, they all finished what they started, successfully. Since there were only a few Sophomores, next year's team will definitely have experience.

H_2O Polo

Back Row: *William Roe, Steve Town, Gerard Romanet, James Kehr, Mike Murray, James Toomey.* **Second Row:** *Sean Call, Carlow Vitro, Nick O'Donnel, Mike Roe, Pat Verge, David Chambers.* **Front Row:** *Manager Veronica Vitro, Coach Bill Bringas.*

This Year's Mariner Water Polo team had an all-around good season under the direction of Coach Bill Bringas and Assistant Coach Karlo Dzidic. The team was all together strong, not lacking in any position. The team consisted mostly of younger players with only four seniors on the team. This season was an opportunity for the younger players to gain experience. They ended the season with five wins and five losses, a good enough record to make play-offs. Although they lost in the first round to San Luis Obisbo, they did turn out a strong performance.

CROSS COUNTRY

Back Row: David Chase, James Brennen, John Anderson, Coach Dennis West. Front: Neil Bloomquist, Gene Bock, Dominic Berbeo, Moses Galindo

It was a long year for the Boy's Cross Country Team. Though the team could not win any meets, the Saint Monica pride and spirit showed through the intensity of workouts and the effort during the races. Dennis West successfully coached Gene Bock to a Second Place finishing in league and John Anderson to Seventh Place, Sending both to CIF Preliminaries. James Brennen and Moses Galindo helped keep the team close in all meets. Next year's Cross Country is sure to be a threat in the Camino Real League next year.

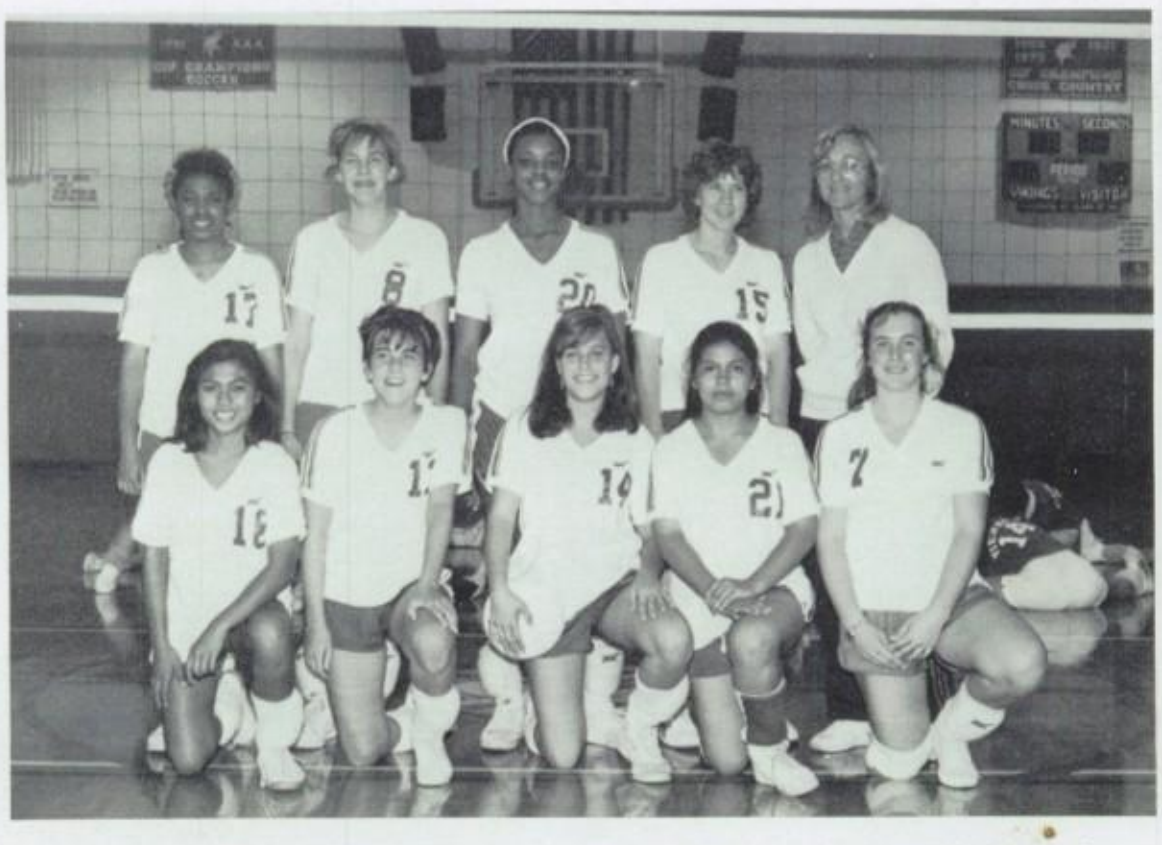
Girl's Volleyball

Back Row: Kelly Sullivan, Laura Leaton, Megan Cleary, Ann Marie Mandic, Lisa Bomberger, Asst. Coach Williamson. Front Row: Kristin Logsdon, Diane Renner, Maritza Ramon. Not Shown: Gina Bell, Athena Carillo, Coach Rachel Craig.

VARSITY

The girls J.V. team had a good season under coach Margaret Williamson. The team ended the season with a 6 and 2 record. Although there is no playoffs for J.V. teams, the team worked hard to be their best and live up to their potential. The team has many players to watch out for in couple years to lead the varsity team.

The 1986 varsity volleyball team had a terrific season. Under coach, Rachel Craig, the team lived up to their potential beating such teams as St. Anthony's and Mary Star while being serious threat to league winning St. Bernard's. Although the team only placed 3rd in league standing with a 7 and 3 record, they did really well in playoffs winning their 1st and 2nd round games and finally losing in quarter finals in a tough five-game match to Campbell Hall. This team is one to be proud of considering it was the first time they've won in playoffs for several years. The team was led by the hitting and blocking of junior Megan Cleary, the setting of senior Laura Leaton, both who made 1st Team all league Camino Real, and the defense of senior Diane Renner, who made 2nd team all-league Camino Real.



Back Row: Nichole Pickingpack, Barbara Klein, Katina Calvan, Michelle Scott, Coach Williamson. Front: Mary Edu, Gina Varni, Liz Shirinian, Sonia Hilago, Kelly Bandura.

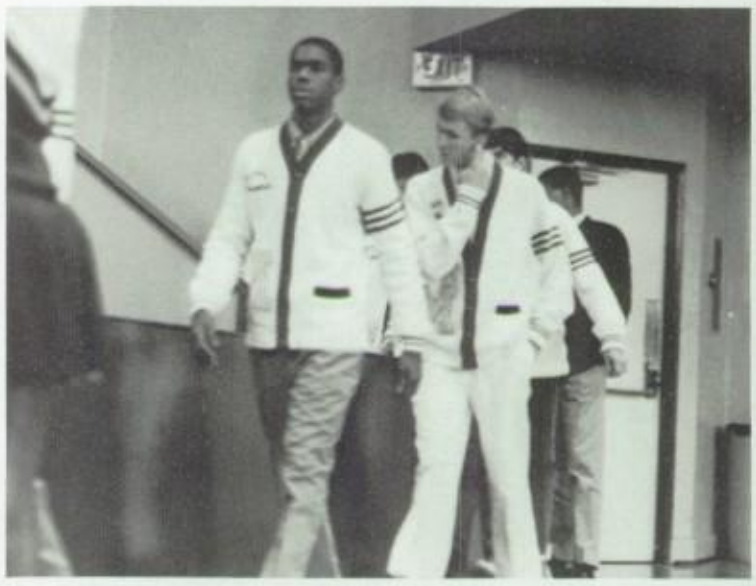
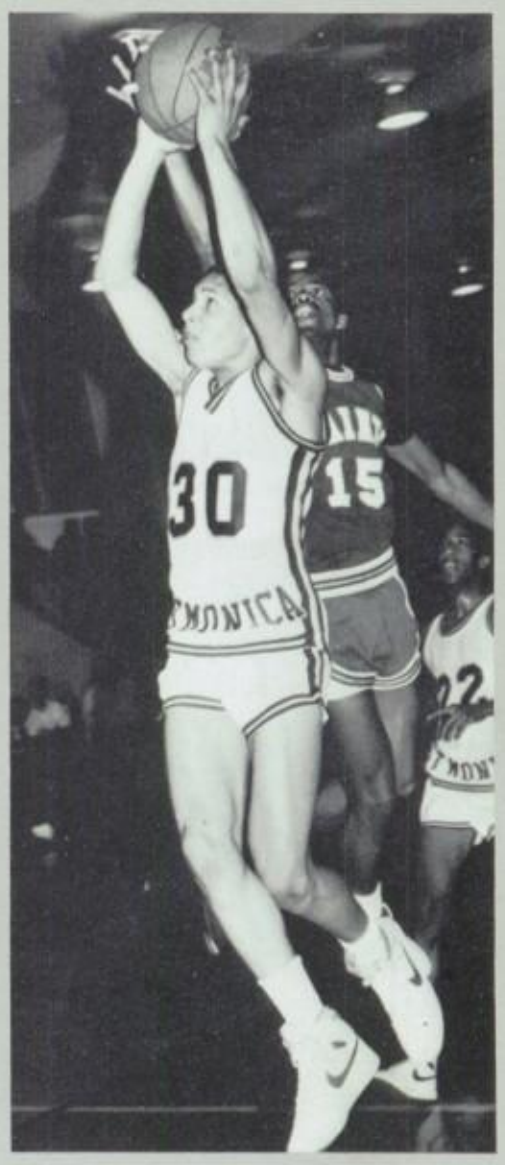
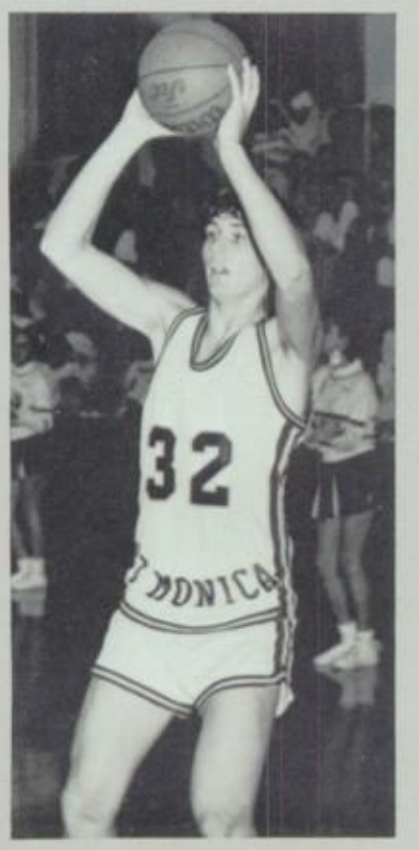
Varsity Basketball

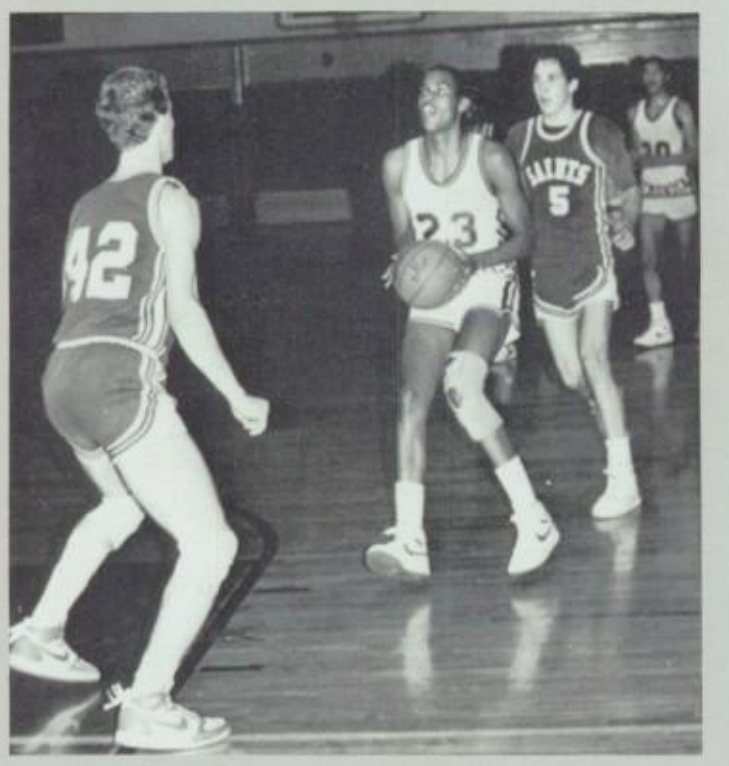
Top Row: *Coach Leo Klem, Kevin Indiek, Roger Montgumery, Gordon Cubley, Brian Williams, Paul Eberhardt, Donovan Green, Marlin Hayes.*
Bottom: *Rick Bomberger, Jason Joe, Jason Matthews, Chris Cotton, Phabian Davis, Bobby Reason.*



It was an exciting season for the boy's Basketball team from the beginning to the very end. The season started with several tournament games in which the team placed either 1st or 2nd. These were followed by pre-season games and then by league play. After winning the pre-season games, the team was ready to start battling in league. Expecting to win most of their first few games, the team got off to a slow start when they unexpectedly lost the first two games. With the shooting of senior **Jason Matthews,** *this quickly turned around and the team picked up the needed momentum and finished the rest of the season with an undefeated record. After beating 2nd place St. Anthony's, the team had the chance to play against Pius X for the championship. After a tough loss, the Mariners finished the season in overall 3rd place. This record was good enough to take the* **Mariners** *to* **league playoffs** *and to make* **semi final playoffs** *in* **CIF.** *It should be noted that this years team competed in the* **most difficult league** *of any St. Monica's team* **ever.**







ACTION!!

JV Basketball

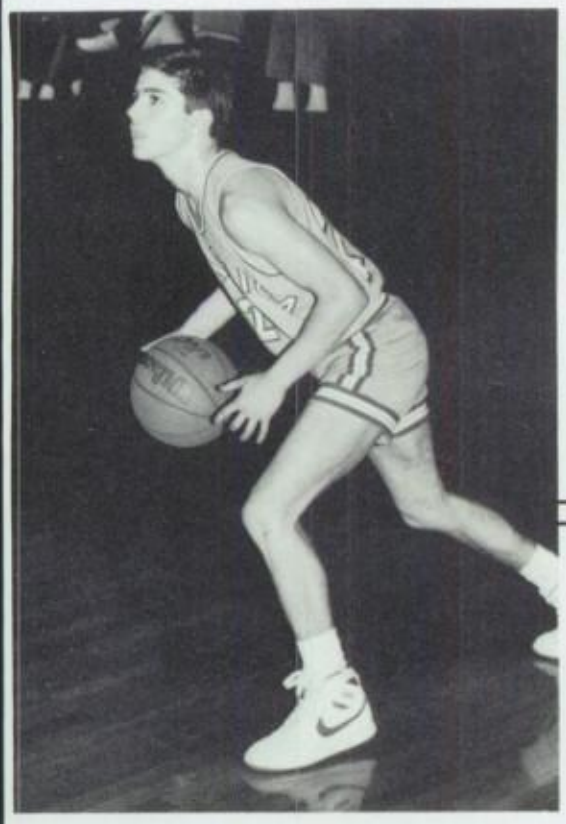
Back Row: *Coach Mike Willard, Rodney Cole, Marlon Hayes, Donovan Green, Anthony Hubbs.* **Bottom Row:** *Robert Denser, Derrick Jones, Carlton Zellars, Mike Adams, Chris Leaton.* **Not Shown:** *Corey Spencer*

The Junior Varsity Boys Basketball team was a talented one this year. They played together like a team should. They enjoyed a season ending victory over St. Anthony's that took four over times. Marlon Hayes, Donovan Green, Rodney Cole, and Robert Denser made big contributions to the team. The 86-87 JV Team showed good sportsmanship and good work ethics.

Freshman Basketball

Freshman Basketball at St. Monica's is always exciting and entertaining. This years team featured a lot of fast-breaks and defense. They always played hard and never gave up. We'll see some of the freshmen on J.V. next year, and they'll make a major impact on the team.

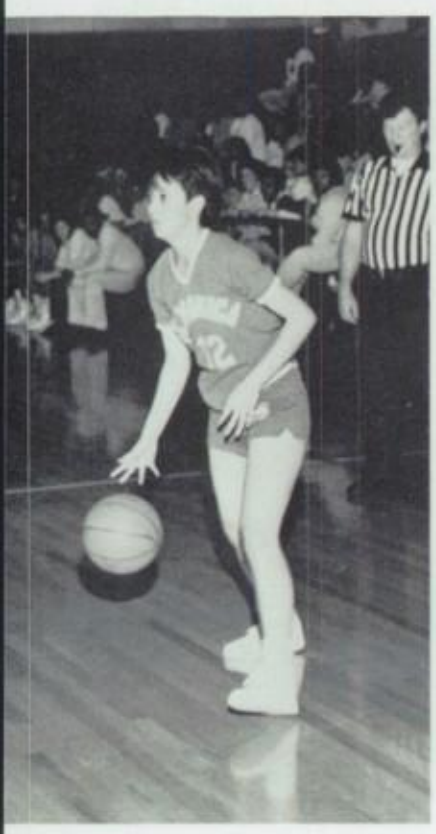
Top Row: Romel Rosello, Colin Wardlaw, Fablan Davis, Eric Cummings, Chris Winn. Bottom Row: Cesar Pernisco, Paul McConville, Chris Kiely, Kevin Gallagher. Not Shown: Steve Hanna, Coach Kevin Hawkins



GIRLS BASKET BALL

Back Row: Manager Carrie Webster, Marion Hernandez, Michelle Scott, Katina Calvin, Claudia Tapia, Sylvia Jimenez, Tina Hernandez, Asst. Coach Ken Collins, Coach Jeff Gray. Front Row: Gabby Garcia, Helena Dupree, Karla Soto, Lillivel Santos, Miros Barragan, Kristy Robinson, Marcia Sanchez.

It was a disappointing season for this year's Girls' Basketball Team. Since there was no JV Team, all the girls were brought up to Varsity. They ended the season with a 1 and 11 record in league and a 6 and 15 record overall. Although their record doesn't show it, the team did make progress. Under first year coach Jeff Gray, the girls worked hard and showed some improvement with each passing day. With only one senior on the team, Co-captain Lilivel Santos, it gives the girls the chance to play as the same team next year. With thè determination they showed this year, the hard work is bound to pay off next year.



Soccer

Bottom Row: *James Brennen, Loren Plante, Sammy Romo, Ernie Averello, Mike Gallegar, Cito Cibola, Terrence Hunter.* **2nd Row:** *Omar Morales, Rick Gregory, Scott Wimlick, Chris Shif, Gene Bock, Eddie Ramon.* **3rd Row:** *Omar Falah, Jesse Celis, Tom Sarac.* **Top Row:** *Serge Salcido, Carwlo Carmeo Restifo,* **Coach Tom DeWitt,** *Sean Jackson.* **Not Shown:** *Juan Reyes, Juan Torres.*

This year's boys Soccer Team did not have the kind of season they expected and hoped for. In the recent years, the team was able to secure a playoff berth. This year, the team barely lost this by a tough **2-0** *defeat to 1st place St. Bernards. Although they did not place very high in the standings with a* **4** *and* **7** *record, they did prove they have a strong team in terms of sportsmanship and working together. The offense was led by Juan Torres and Omar Falah and the defense was led by senior Gene Bock. Three members made* **all league: Juan Torres, Omar Falah** *and* **Gene Bock.**

The 1986-87 girls soccer team had a very good season. Only in its third year of existence, the team proved they have the ability to win. They finished the season with 7 wins and 3 losses with 4 ties, putting them into a tie for third place. This put them in a fight for the third spot in play offs. Unfortunately, because of losing a coin flip the team lost their chance to make play offs for the first time. The team was lead by Dianne Drummond and Kelly Kehr. The team played with good sportsmanship throughout the whole season.

Back Row: Maritza Ramon, Karen Newlove, Hiedi Oversier, Candice Banks, Dianne Drummond, Coach Tom De Wit. Bottom Row: Lisa Salgado, Gina Varni, Maria Paez, Adela Paez, Brooke Valona.

Varsity Baseball

This years Varsity Baseball has it's sites on success for the whole group. Under the new **coach, Andre Patterson,** *the team looks like it has enough potential to take them fairly far this year, and in the future.*

Coach Patterson

The 86-87 JV team is under the coaching of **Mr. Jim DelaTorre.** *The team is mostly made up of Freshmen which will surely bring a promising future for the teams to come.*

JV

GIRLS SOFTBALL

Back Row: *left to right — Marie DeLuna, Heidi Overseer, Kely Kehr, Diane Renner, Christy Robinson.* **Middle:** *Mrs. Mattos, Liz Cook, Cynthia Martinez. Yolanda Valdez, Maria Paez, Carrie Webster, Tina Hernandez.* **Coach Larry Rodriguez. Front:** *Alicia Quintero, Joan Palacio, Veronica Haro, Gabriella Gudino, Marible Berument.*

There is high hopes for this year's softball team. While the team hasn't had much luck in recent years, and isn't well known around school, this years team could change all that and gain some recognition as **a team to come out and cheer on!** *Without many players returning from last year, the team consists mostly of freshmen and a few upperclassmen. Although the team is very young, they have a chance of placing very well in league this year and gaining the valuable experience they will need in years to come.*

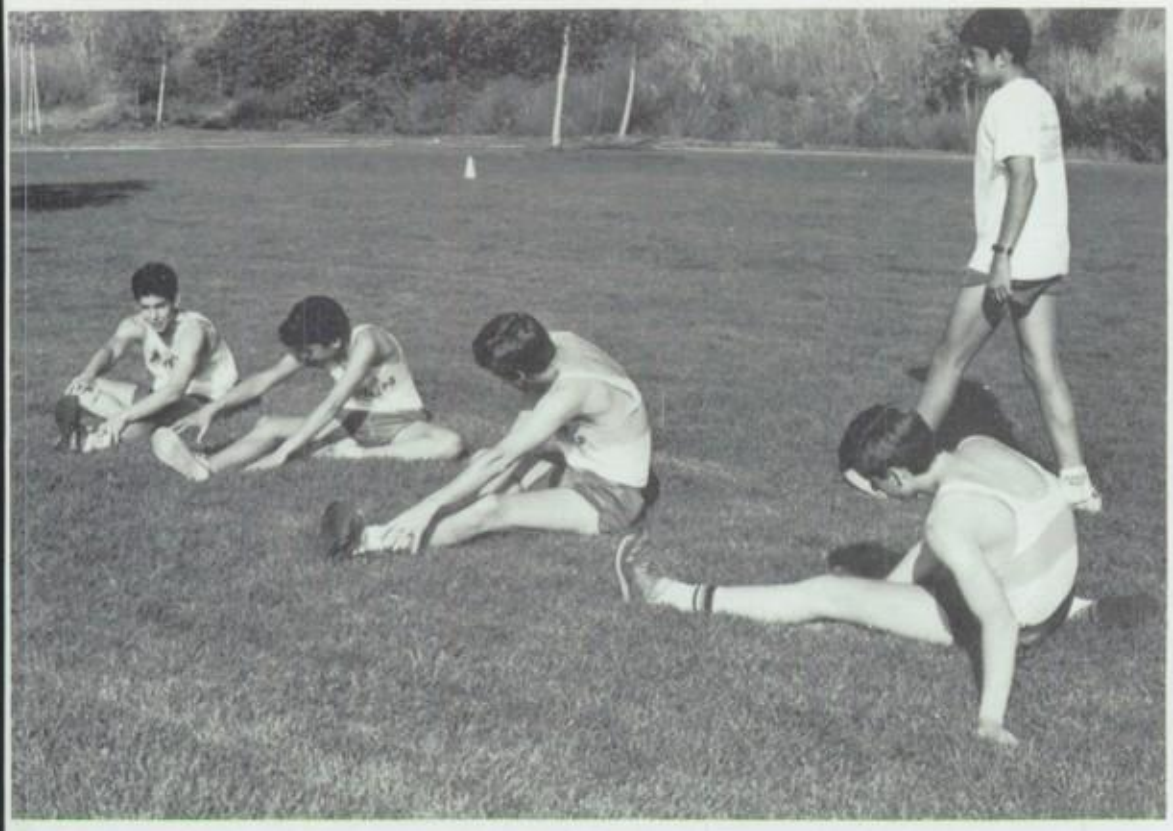
Boys Varsity Track

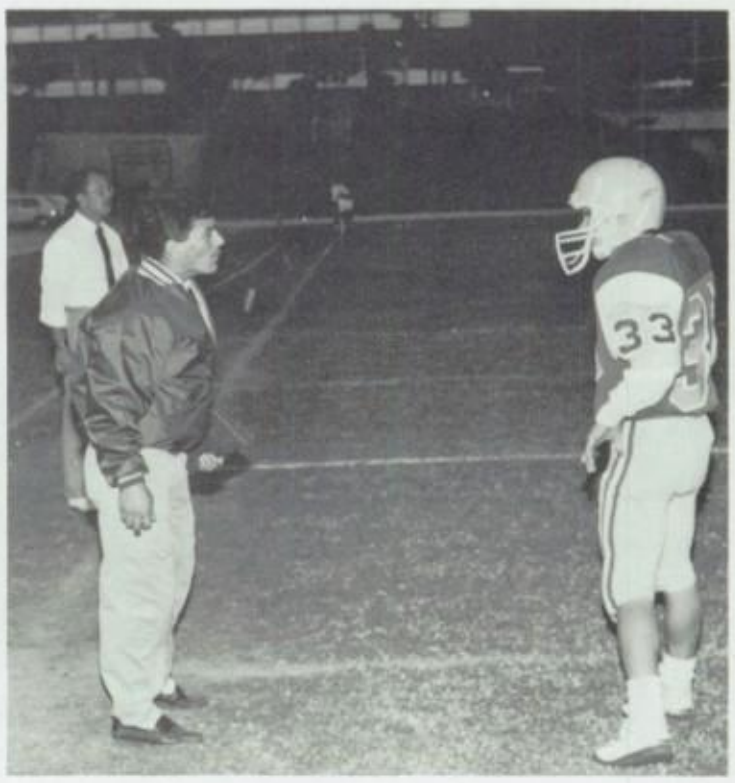
This year's Track Team gave Saint Monicas a start for a well-organized Track program. With twenty-five male and female competitors, St. Mo's was always a threat to the opposing team. From the endurance of Gene Bock and John Anderson, to the raw speed of Steve Haynes and Yvette Pennington, the track promises to have one of the best teams in St. Mo's History.

Girls

Girls Left to Right: Maribel Ortega, Gabriela Siemion, Elenor Leventhal, Kelly Guajardo, Georgina Suarez, Tina Precando, Mary Edu, Athena Carillo, Yvette Pennington.

Sports . . . Candids . . .





WE LIKE OUR

LEFT: *The Junior Varsity Cheerleaders cheer on the J.V. football team at one of their games.*

Saint Monica has a reputation for being a polite crowd. Although tensions can run high during some of the intense moments, the Mariner Mob usually kept its cool and withheld their emotions. The Mariner Mob was started by the Executive Board in order to promote attendance at the Basketball games. It started out a little slow, but with the help of **Father Brelsford,** *dressing up as a Mariner Mobster at one of the Pep Rallies, it became a success, and we created a good name for our rooting section.*

ABOVE: *Gina Mondello, Kevin Mott, Richard Garcia, and Michael Whitehead show their tonsils to the camera man at the game. "Come on Gina, open wide!"*

ABOVE: *The whole Mariner squad jumps in for this picture.*
RIGHT: *Probably one of the youngest Mariner Mobster peeks over his sun glasses at the action on the court. "Some day I'm gonna be able to do that too!" he mumbles.*

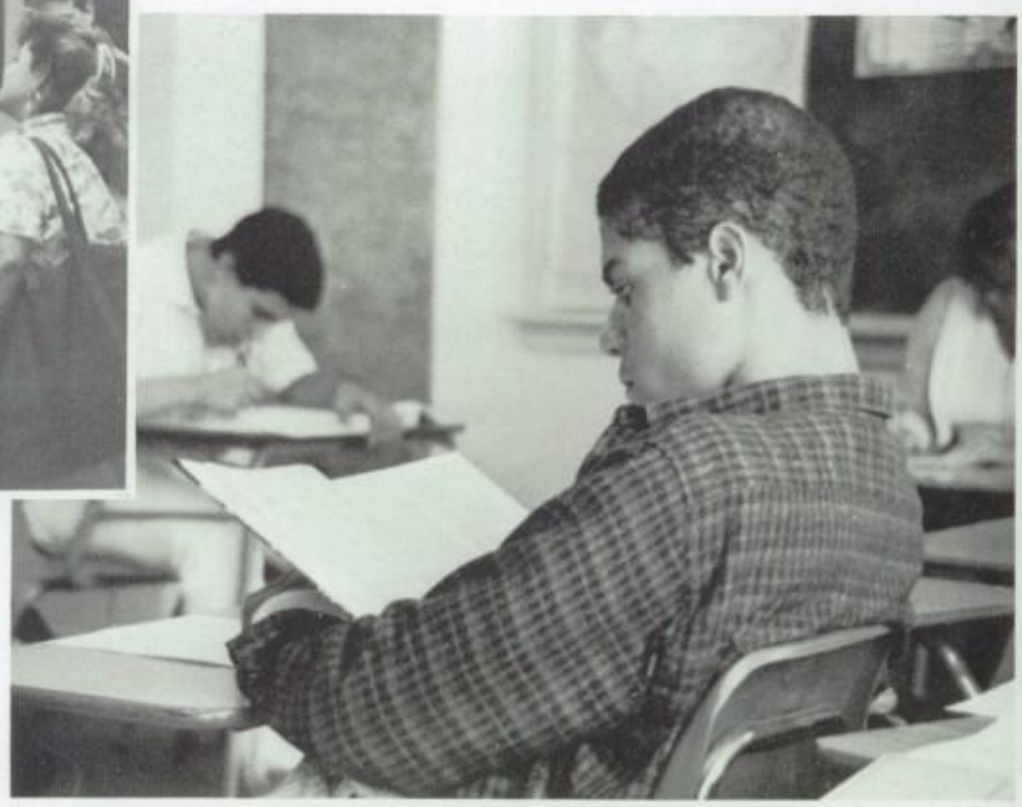
TO SHOW PRIDE

RIGHT: *The Drill Team, under the direction of Teresa Escalera create an impressive pose.*

A wide variety of people showed up for the games. Rooter busses were chartered to hold the Mariner Mob. An enormous amount of teachers showed their support by filling up their own busses. They showed the students what they were really made of as they stood up and cheered louder than the rest of the kids. THANKS TO ALL WHO LENT THEIR TIME TO SHOW THEIR SUPPORT AND SCHOOL PRIDE. THE ATHLETES REALLY NEED AND APPRECIATE IT.

ABOVE: *As tensions run high through the last seconds of the game, Seniors Teresa Arredondo, Alex Germani, Sherif Hanna, and Scott Drosdick wait anxiously for the ball to drop.*

ABOVE: *A Teddy Bear even wants to join the Mariner Mob. He was obviously welcomed with joy.* **LEFT:** *The Drill Team, in the middle of one of their performances at a football game.*



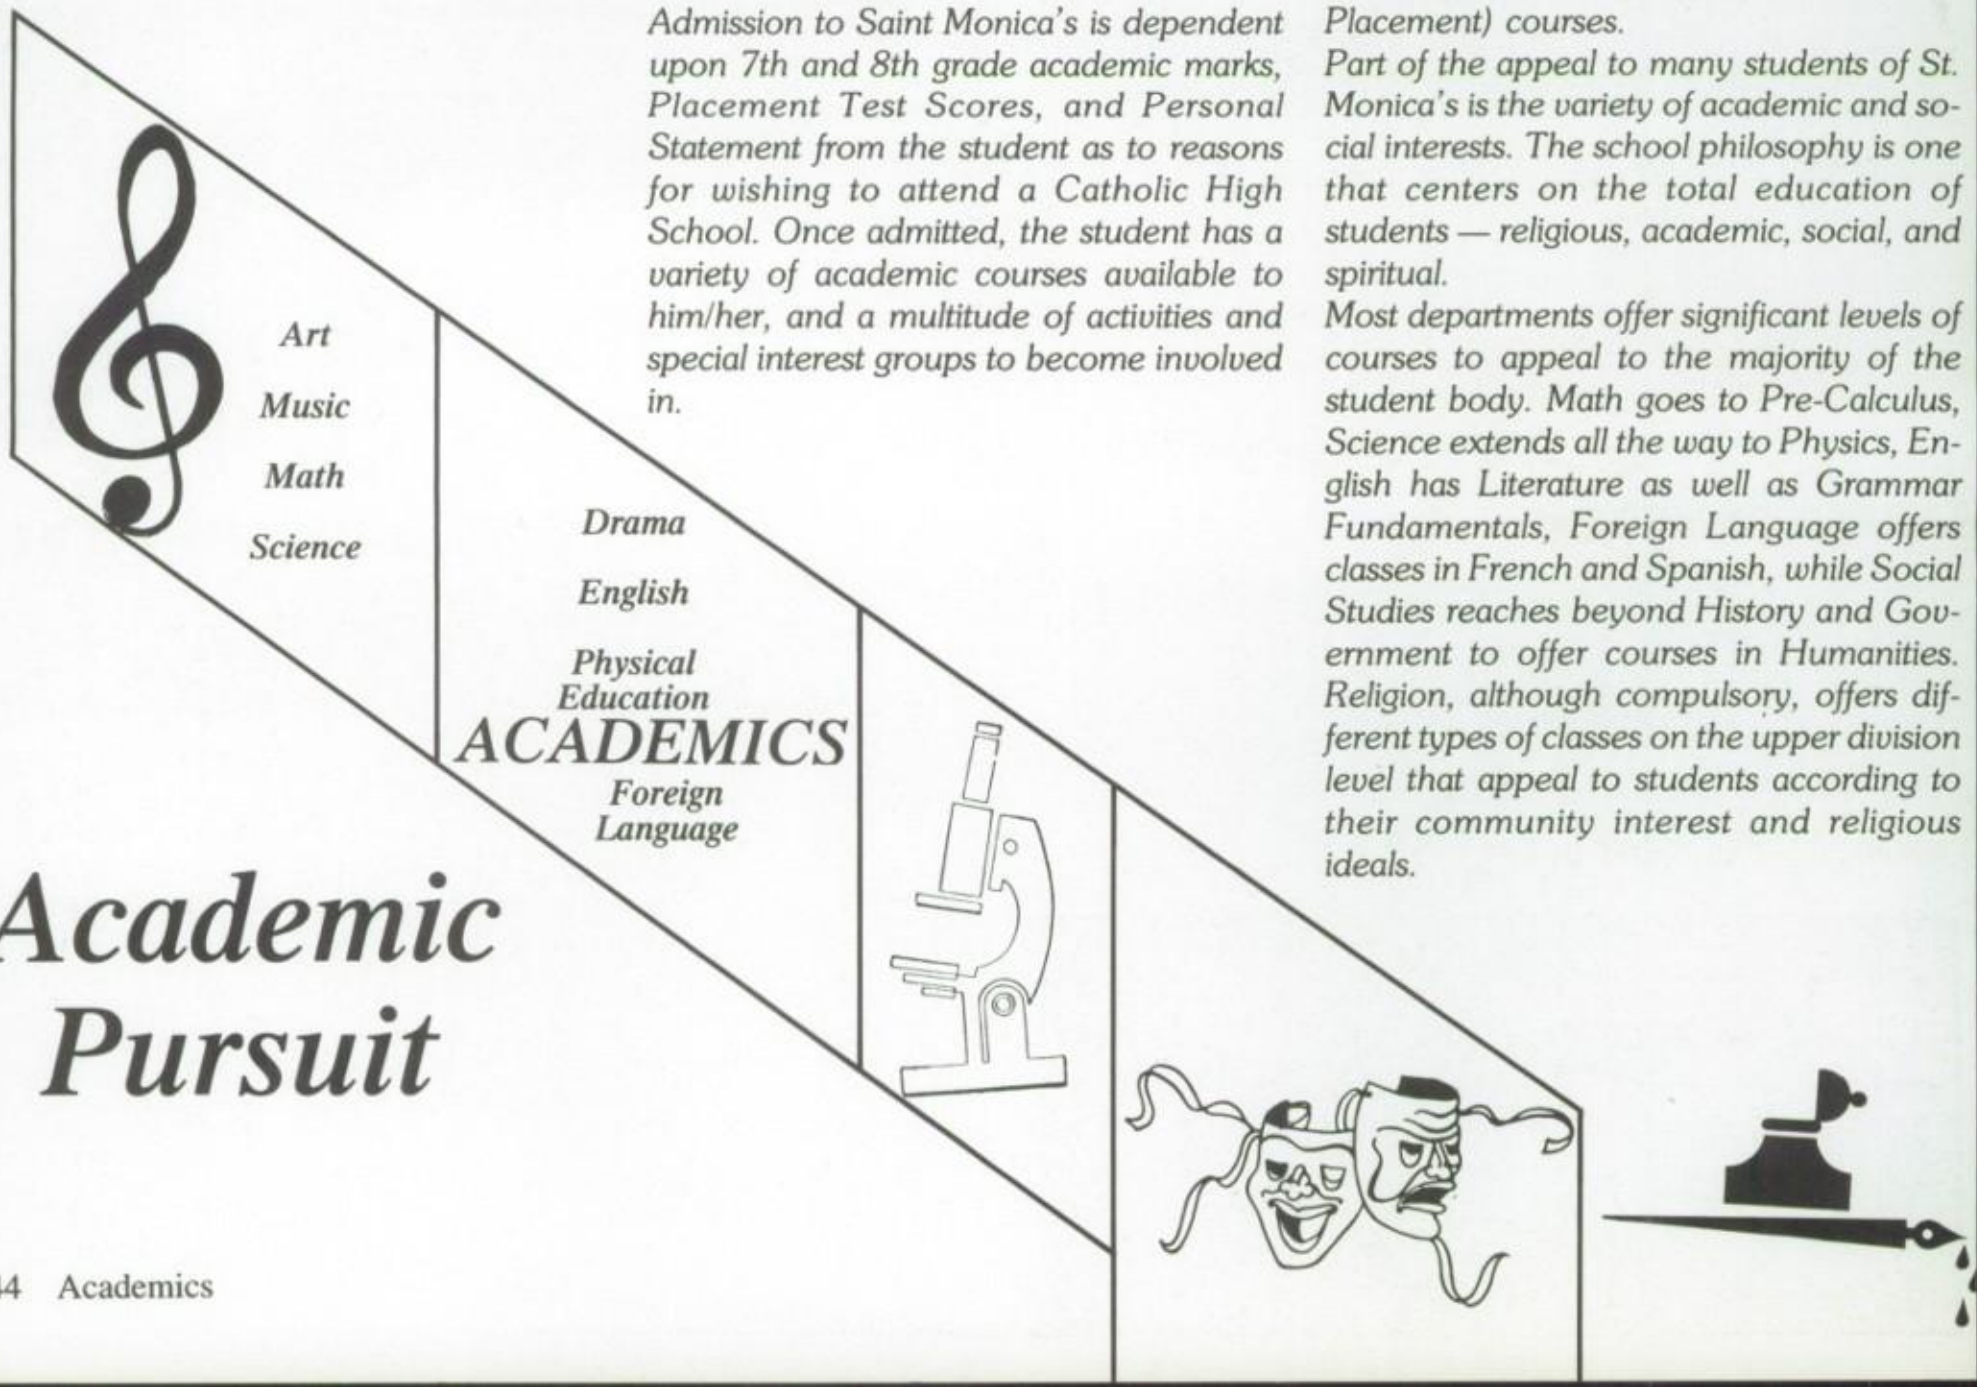
Academic Pursuit

Admission to Saint Monica's is dependent upon 7th and 8th grade academic marks, Placement Test Scores, and Personal Statement from the student as to reasons for wishing to attend a Catholic High School. Once admitted, the student has a variety of academic courses available to him/her, and a multitude of activities and special interest groups to become involved in.

Saint Monica Catholic High School has an extensive curriculum that ranges from general education/graduation requirement type courses to college preparatory and all honors courses as well as AP (Advanced Placement) courses.

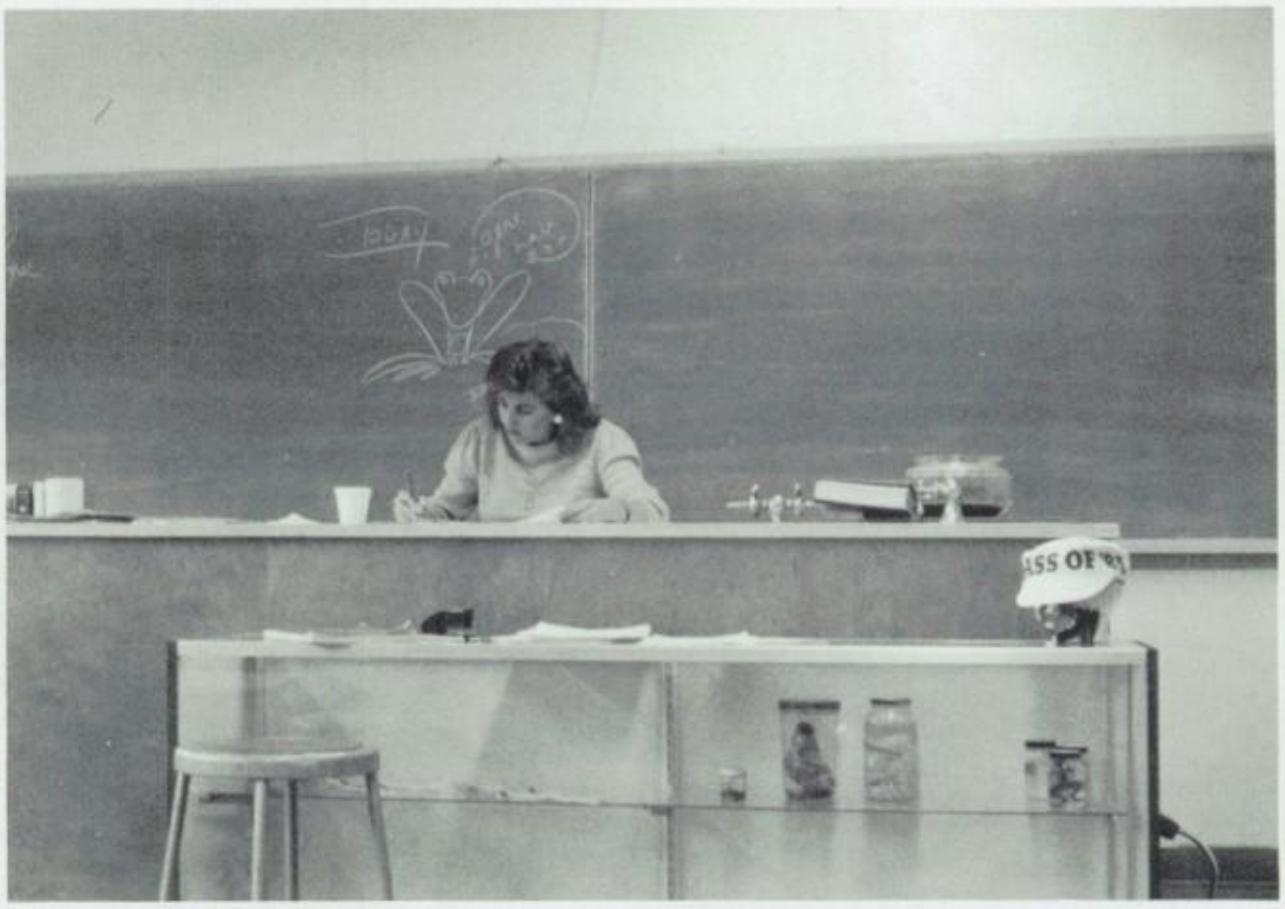
Part of the appeal to many students of St. Monica's is the variety of academic and social interests. The school philosophy is one that centers on the total education of students — religious, academic, social, and spiritual.

Most departments offer significant levels of courses to appeal to the majority of the student body. Math goes to Pre-Calculus, Science extends all the way to Physics, English has Literature as well as Grammar Fundamentals, Foreign Language offers classes in French and Spanish, while Social Studies reaches beyond History and Government to offer courses in Humanities. Religion, although compulsory, offers different types of classes on the upper division level that appeal to students according to their community interest and religious ideals.



Under the directon of **department chair Mrs. Loretta Reese,** *the Saint Monica science department offers students a challenge and an opportunity to develope their thinking skills. Teachers in the department are:* **Mrs. Loretta Reese** — *Chemistry and Physics,* **Mrs. Teresa Coda** — *Biology,* **Mr. Jim Dela Torre** — *Biology, Zoology, Marine Biology, and* **Mrs. Karen Renner** — *General Science.* **Ms. Suzank** *is a part time member of the department, teaching one section of General Science.*

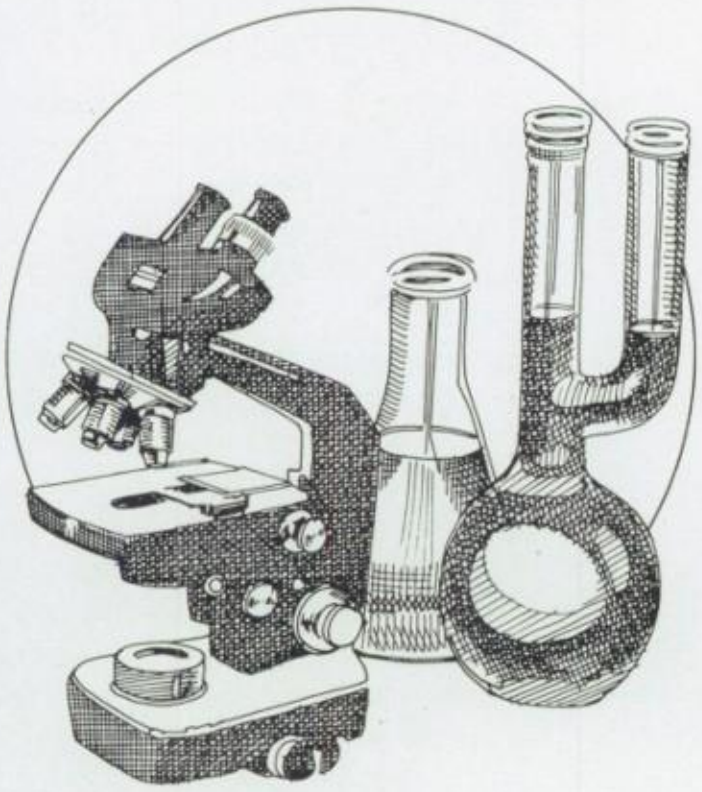
The teachers of the science department try to work together to develope curriculum that carries on where the previous course left off. Their goal is to turn students on to the study of science and make learning a fun, exciting experience. All courses except General Science are lab courses, 2 year graduation requirement.



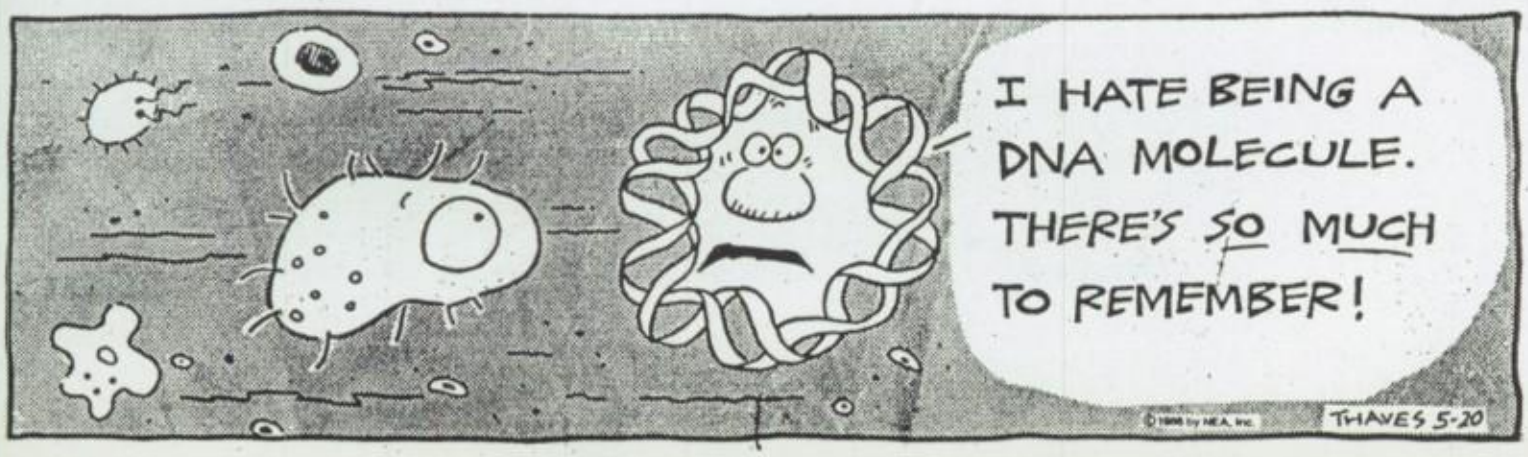
Above: *Mrs. Coda grades papers during passing period. Mrs. Coda is infamous for her cartoon 'eyes' drawing students attention to important messages on the board.* **Below:** *Mrs. Renner conducts a demonstration for her General Science class. Mrs. Renner puts a great deal of energy into all that she does and her students appreciate her commitment to teaching.*

Science

SCIENCE IS THE FUT E. WHAT IS MISSING? UR



FRANK AND ERNEST By Bob Thaves



Science thinking skills are important to develop in order to solve problems. Labs help develop these skills.

Math

Above, *Mr. Toomey teaching sophomores Geometry. Geometry is generally a required Math course for those trying to attend college.* **Left,** *Miss Carotozolo teaches freshmen Algebra. Algebra is often a difficult subject for incoming freshmen, mainly due to high Math Anxiety.*

Mathematics . . . the mere word is bound to extract some type of strong reaction from students. Math is **not** *a subject that most people feel neutral about, you either love it, or you hate it.*

Many people have a great deal of anxiety about math classes due to previous poor performance. The math department at St. Monicas try to help students overcome these fears and enjoy and learn more about this subject.

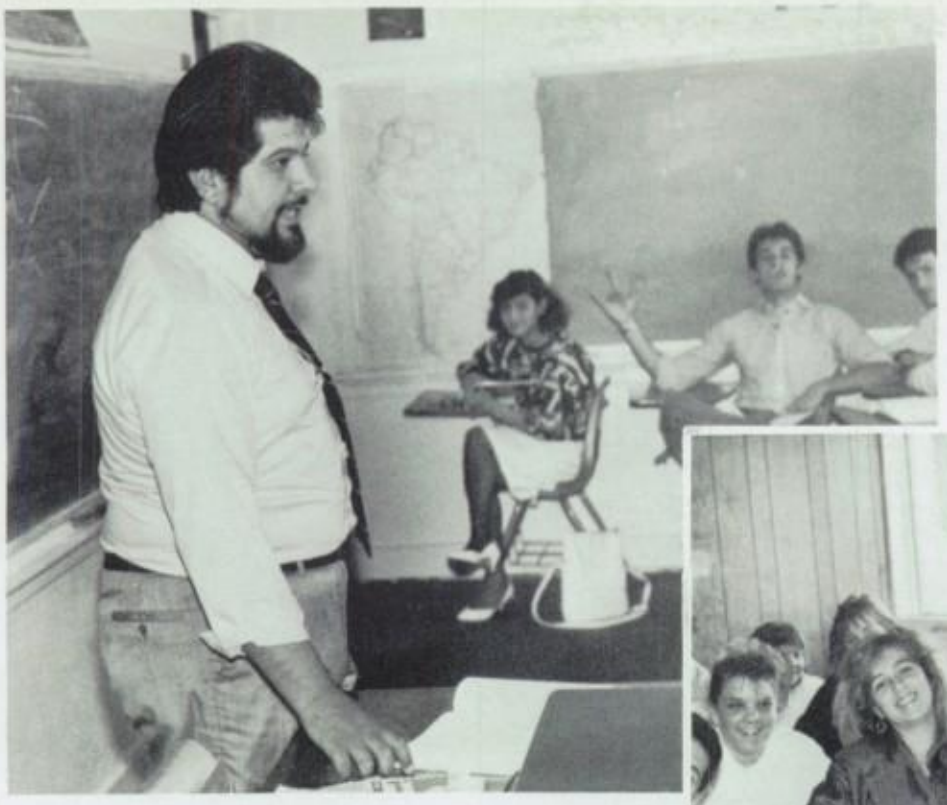
Computer classes are now in their fourth year at Saint Monica's. The lab has fourteen free standing units and a teaching terminal. The chosen type of computer is the Apple II which has the most to offer for the money.

Classes go from introduction/basic level to a basic programming level of student performance.

The computer classes are taught by Mrs. Toomey and Sr. Cheryl Milner and are considered part of the Business department.

Right, *Korina Meza, Minerva Meza, Jenny Pinzon, Rodamine Garra, David Chambers, Lisa, and Damon Banks. Computer classes are generally a mixed grade level elective.*

Foreign Language English



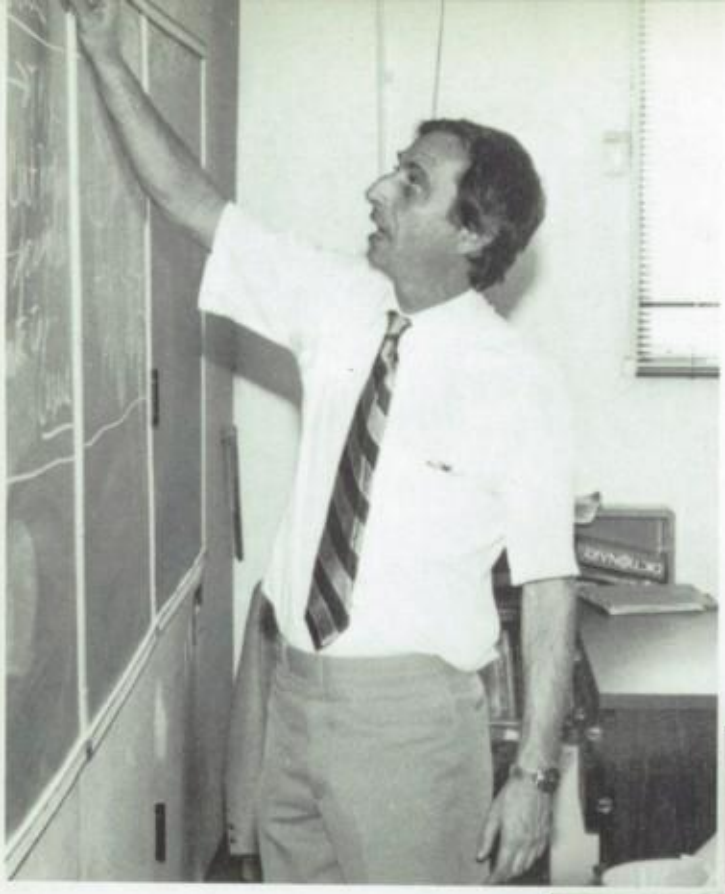
Top, *Mr. Rodriquez lectures to his Spanish class. The foreign Language department offers two languages, several levels.* **Right,** *Mr. Castillo has a casual style that pays off in effective teaching!*

Mrs. Cheri Blackburn *is the long standing chairperson of the Foreign Language department at Saint Monica's. Two languages, French and Spanish, are taught. French offers classes in the Introductory or French I, II, III, and IV taught by Miss Cleland. Spanish offers Native Speaker, I, II, III, IV, and AP (advanced placement). Foreign language remains a very popular field of study at St. Monicas.*

The English Department at Saint Monica's has a variety of course offerings. English is a compulsory subject for the duration of a students high school career. Classes focus on fundamentals, making students proficient in reading and writing. Time is also given to the **pursuit** *of literature and poetry. This combination helps the student develope a better vocabulary and an appreciation for English.*

Left, *Mrs. Conterno and freshmen students. Freshman English is an important first step to the overall english foundation provided throughout high school.*

SOCIAL STUDIES



Above: Mr. Rose *as he teaches Economics. Econ has become a requirement for graduation.*

Above: Miss Pruett *as she helps a US History Student.*

Ms. Tracey, *Social Studies Chairperson. Ms. Tracey also teaches Humanities, Government, and US History.*

The Social Studies department has many interesting classes to meet the mandatory three year requirement for graduation. Some of the compulsory courses include: Global Studies (10th), US History (11), Government (12), and Economics (12).

The Social Studies Department has many of the well respected faculty members including: **Mr. Rose, Miss Pruett, Ms. Szala,** *and* **Ms. Tracy.**

Social Studies can be a fun and exciting area of learning. The personality of the teacher and the life that they put into their subject has a great impact on the students like of the material.

The Social Studies department is one of the departments that also offers honors and AP level studies. Currently, AP Government is available to the more motivated and academic student on the senior level.

The idea behind AP courses is to allow students the opportunity to take a course that prepares the student for a national exam. Passing the exam gives the student college level credit for the course.

Mr. Rose *has been a long standing and well respected member of the Saint Monica faculty. We would like to take this opportunity to thank him for all his hard work and dedication to his students.*

Religion

Religion remains another compulsory part of the game of **"Mariner Pursuit."** *Students take a solid year of religion each academic year they attend Saint Monica's. Some of the courses focus on teaching the various aspects of the Catholic Faith. These classes teach the viewpoint of the Church on social and moral issues as well as the churches history. Other classes are more contemporary, teaching current issues and taking a less church orientated position.*

Overall, the religion classes tend to be enjoyable and informative for students.

Above, **Top Left, Sister Nancy Clemmons** *leads her religion class in a prayer at the beginning of the period.* **Above, Mr. Gabitiono** *teaches freshman religion while* **Mrs. Paneno, Left** *teaches Senior Religion classes.*

Saint Monica's has an extensive art department under the direction of Mrs. Peiffer. We have calsses in basic design, perspective, and introduction to art.
A fine arts class is a required course for graduation from Saint Monica's and part of the overall education of the individual student.
Not all students become artist, but all can develope a better sense of color, texture, and appreciation of art.

Art

Music

Saint Monica's offers several different types of Music classes. There are courses in vocal music, under the direction of Ms. Suzank, and instrumental classes under the direction of Mr. Kocis.
Music courses also meet the fine art requirement for graduation and have been very popular among the students at St. Monica's in the past.
The music classes also train for, and compete in many local productions and act as a major source of recruitment for incoming freshmen.

Practical Skills are a matter of . . .

Business

The business department has many courses that are practical for students to take. One of the courses that should be taken by all individuals is typing.

Learning to type helps the student who is planning to get a job in the near future as well as those planning on continuing in school. Most college level courses require that students type all papers. Typing a paper when you have to look and peck keys is a very time consuming chore!

Mr. Dan Escelera is the primary teacher of business classes at Saint Monica's.

Business Law

Computers

Accounting

Typing

Performing Arts

The performing arts department under the direction of **Mr. John Dantona** *remains a strong and popular department on campus.*

Class offerings range from Speech, Debate, Choral and Instrumental specialty groups all the way to different levels of Acting classes.

From the classes comes most of the student performers that are involved in the many fine productions put on each school year.

Another special event involving many performing arts students this past year was 'Peace Child' around Christmas.

CHECK-OUT THE LIBRARY

LIBRARY READING PERMIT

Pupil will fill out blank before presenting to proper persons for signatures.

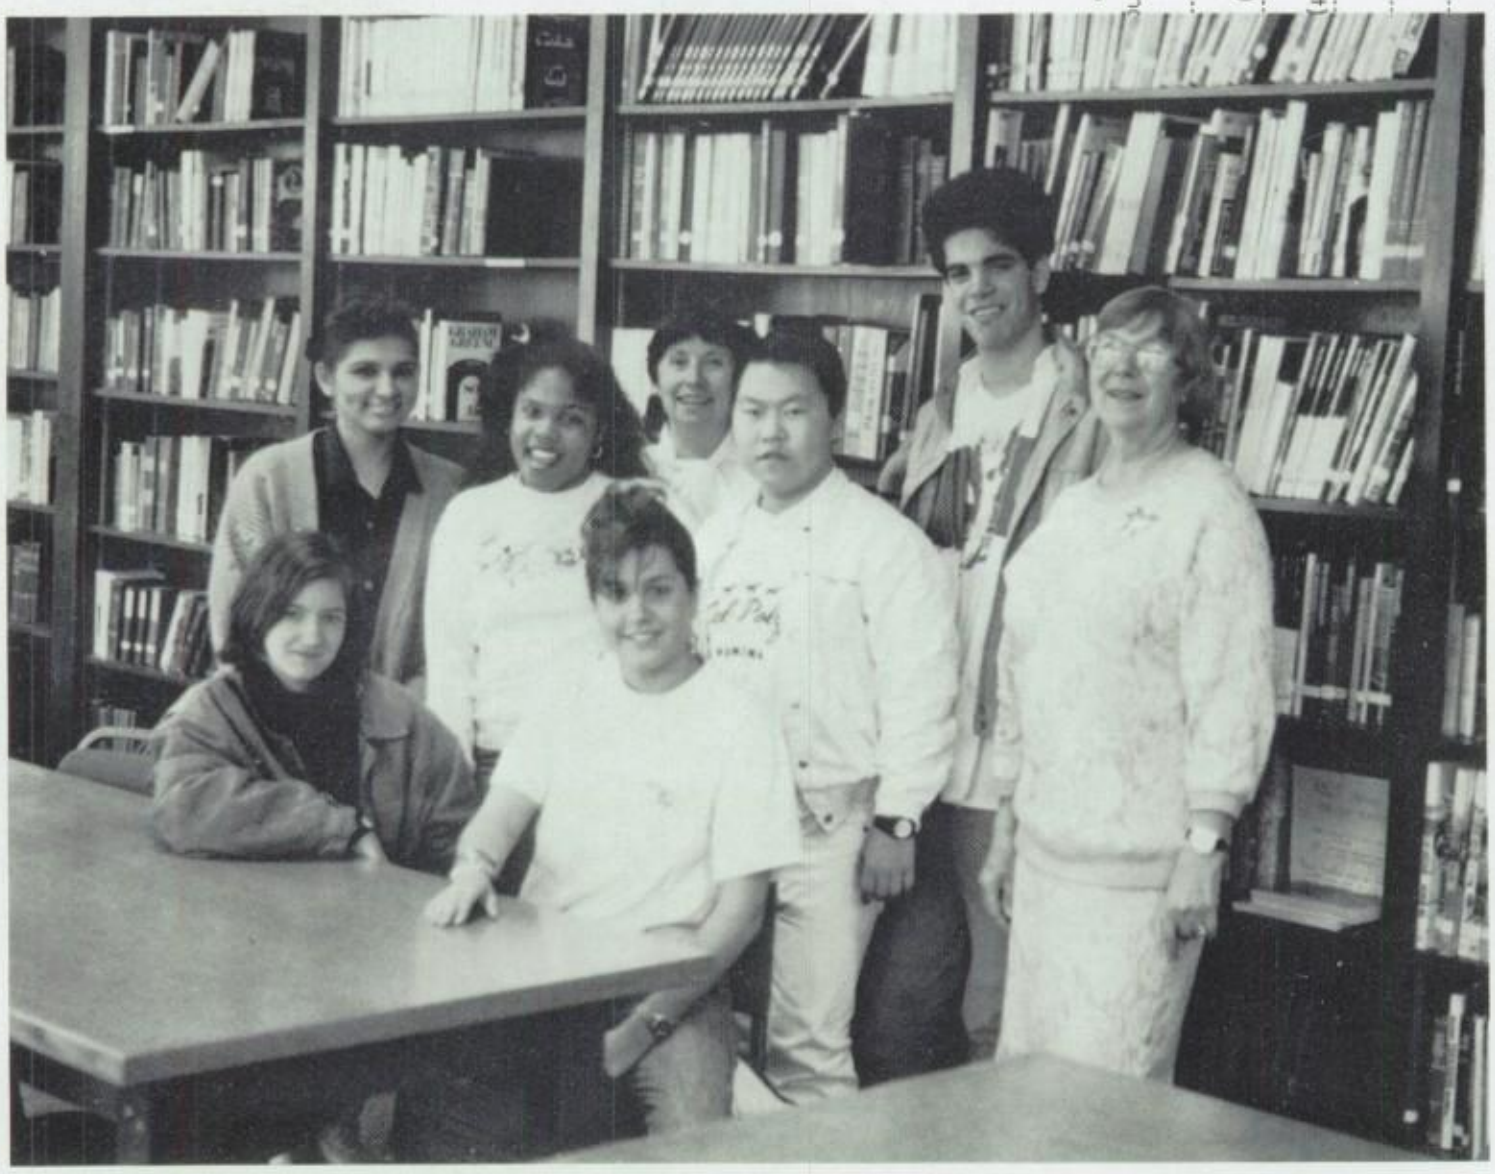
(Signature Librarian)

This part to be returned to person excusing

School Service Co., Inc., 157 W. Ontario St., Chicago



The Library staff headed by Mrs. Zeck, and Mrs. Olivares, consists of: Linette Galvan, Diana Pugh, Andrew Siadi.

There are a lot of students at St. Monicas that do in fact "Check-Out" the library. It is a popular place during lunch for those who need a quiet place to study and do homework. The reading room in the library is full of up-to-date newspapers and magazines for daily readings. These can be checked out daily for students who want to keep their reports full of current information.

Also available in the library is the information kept in the "Verticle File." This information can range from newspaper articles to artwork. It also can be checked out overnight. The wide variety of books in the library make it easy for those students who can't make it to a public facility. Our own library came in especially handy this year because the nearby Santa Monica Library had been closed for renovation. **We salute you Mrs. Zeck, and your whole library staff for giving us a good learning environment to help us in our academic stage of the Mariner Pursuit.**

Keeping us informed It's the Mariner

Newspaper

Above *from left to right,* **Moderator** *— Mrs. Mattos, and the Mariner Newspaper staff: Kurt Doer, Eric Fedel, John Cenzano, Jennifer Wardlaw, Michell Berg, Marilee Capawan, America Ibarra, Maria Ibarra,* **Editor, Elsa Jimenez,** *and Jennifer Wardlaw.*

The Mariner Newspaper has come a long way in the last couple of years. Issues have become more complete and better written with a better flow to the copy. One of the areas that has shown development is the area of interest to the student reader.

The editorial writers have worked hard on developing stories and interviews on topic that are of concern on campus. The staff also takes care in their preparation of the paper in trying hard to cover the major events on campus, be them dances, drama performances, sporting events or fund raisers.

Current moderator, Mrs. Mattos has worked on newspaper publications during her college days in Minnesota. Her expertise has benefited editor Elsa Jimenez in helping the staff produce a readable and attractive school production.

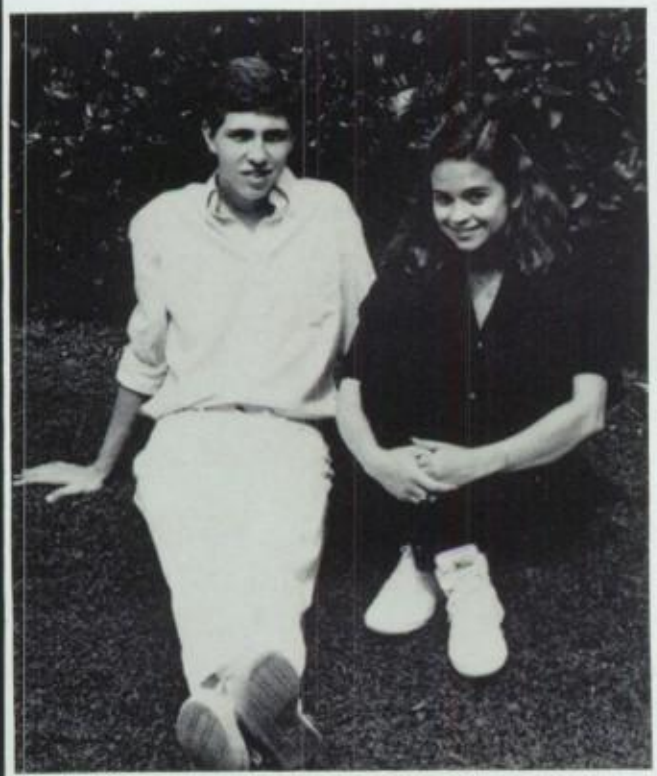
Generally, the long hours and hard work that go into a school production are overlooked by the majority of the student body. Few thank the writers, photographers, and layout people for the many hours required to get the production out.

Being sensative to this ourselves, the **Compass staff** *wishes to* **thank** *the* **Mariner Newspaper staff** *on behalf of the student body at St. Monica's for a job well done.*

1986-87 COMPASS STAFF

The production of a yearbook is a long and tiring job. Many hours must be spent pursuing 'the' photo, attending 'the' activity, planning group shots, going to sporting events, the list is endless. Once all the photos are obtained comes the job of putting it all together into the layouts you see before you. Time must be spent not only in design, but in carrying the theme and writing copy . . . lot's of copy! Yearbooks are the combination of artistic and journalistic abilities. In the end, another year of our lives has been sorted, analyzed, and hopefully commemorated so we will always remember 1986-87 . . . It was a very good year!

Editors Jenny Fuchs and Randy Stokx



Section Editors *Greg Pererya, Terence Hunter, Michelle Monroe, Teri Calderon, Eddie Bellinaso, Diane Renner, Robert Sandoval, Ana Robinson, Patti Atlas, Michelle Morgan and Juan Reyes*

1986

1987

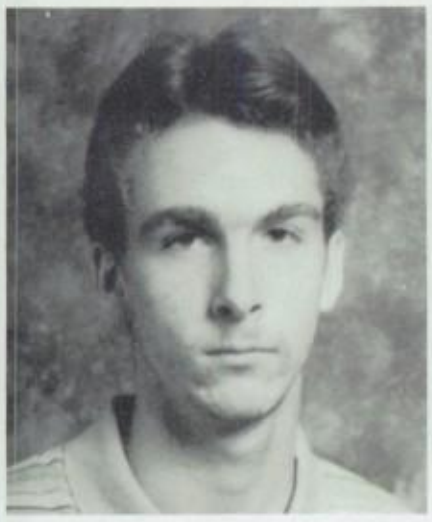
Jennifer R. Fuchs

As we finallly complete the 1986-87 **Compass,** *a wave of relief washes over me. The last few days are always hectic and the thought of not having to look at another copy sheet or artwork book brings tears of joy to my eyes. Still, the completion of this yearbook could not have been possible without the help of so many people. First of all, I would like to express my deepest* **gratitude** *to* **Mr. & Mrs. Finnegan.** *Without your help on the many 'rush' photos and overnight deadlines, we could never have made this book. I would also like to say thanks to the yearbook staff for all your hard work and dedication. I would especially like to thank* **Diane, Gene,** *and* **Marie** *for staying after school so many afternoons to complete layouts. Also thanks to* **Teresa Escalera** *for your outstanding writing talents. A huge thank you goes to* **Randy and Mrs. Coda** *for your help and inspiration during many frustrating moments.*

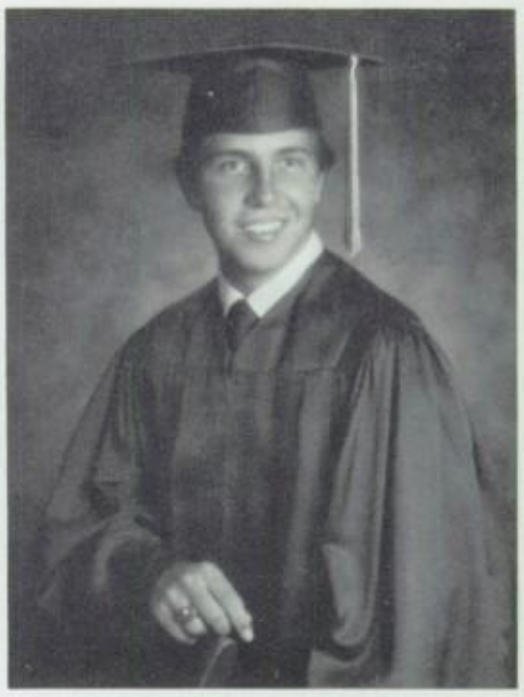
As the yearbook is completed, it hits me like a brick wall that my senior year is almost over, too. I just can't imagine how these four years have gone by so fast. I've had a lot of fun here at Saint Monica's, but these four years wouldn't have been the same without some very special people who have touched my life very deeply. To **Mrs. Devine** *and* **John Dantona:** *I'm so glad I've had you both as my teachers. Without your knowledge, help, and guidance I could never have come so far. You're the best teachers I could ever ask for! To* **Eddie,** *I don't know how my senior year would have turned out if I hadn't worked on* **"Graduates"** *and met you, and I certainly don't want to imagine it without you. Thanks for all the help with the yearbook. I Love You. Finally, to my family, my* **Mom,** *and* **Dad, Tina** *and* **Kathy.** *You guys are so great. I've been through a lot of rough times and without you, I have no idea what ozone I'd be off in!* **I love you so much!** *thank you for everything past and in the years to come.*

Counter Clockwise, from the top: *1973, The Fuchs Family in Yosemite Valley. 1986, in the backyard with a bottle of fermented grape juice. My 'mug-shot' for posterity. 1974, little Jenny on the Santa Monica Pier. Hi everyone! . . . "*

As you can see from the pictures at the **RIGHT,** *I have come a long way from Kindergarten, and I've been through a lot of changes. Well, there have been a few people that have been by my side through all of the changes, good and bad, and I couldn't let the opportunity pass without telling them how much they mean to me. So to my two best friends, Rick and Lisa Bomberger, and the whole Bomberger Family . . . YOU'RE THE BEST!!!!*



KINDERGARTEN



GRADUATION

RANDY J. STOKX

ABOVE: *Jennifer, boy am I glad I kicked you! Ever since that day, nothing has been the same. You've become a big part of my life, and I hope it stays like that. Thanks for all the love you've give me. I LOVE YOU!!*

Throughout my four years of High School, I've had a lot of support from my family. **BELOW** *are pictures of my six older brothers, and my Mom and Dad. They've given me the freedom to do my own thing, but the best guidance possible to keep me from doing the wrong thing. Although some things may have seemed unreasonable at the time, I eventually saw that it was for my own good. I'll never forget all the fun I had during my High School years with my brothers and sisters-in-law. I'd like to especially let my sisters-in-law know how much I appreciate them, because there has never been a time when I couldn't sit down and talk to them. They're always there for me, and I'll always be there for them. There's one more person in my family that has probably been the most important to me, for without her, Saint Monica High would just be a dream. THANK YOU AUNT KAREN, YOU'VE GIVEN ME THE BEST PRESENT I COULD EVER ASK FOR . . . AN EDUCATION!!!*

Two years ago, when I signed up to work on the Yearbook, I had no idea what I was getting myself into. I don't think anyone who has never had the chance to work on a book, knows the time and detail that goes into it. This year's yearbook was even more difficult to produce than the last one because we changed our style. Great financial burdens were put on our shoulders at the beginning of the year, and that resulted in us having to shorten the size of the book, and drop the color pages. We tried to make it up as best we could with quality lay-outs and good clean copy. I, as an editor, hope you look at the book with an open mind and appreciate all the work that has been put into it.

Mrs. Coda, I can't tell you how much I've enjoyed working with you for the past two years. You've taught me a lot about life, but you sure haven't helped my spelling!

Thanks also to those in the class who helped with this book. The long hours after school were hard, but we sure did have a lot of fun. Thanks especially to Marie Deluna, I couldn't have made it through those last days without you! **I'll never forget Saint Monicas, it was the best decision I've made in my life!**

Your Co-Editor

Randy Stokx

We Got 'Mo' Spirit

Saint Monica's Cheerleader (JV) show off some of their many fine formations. Cheerleaders go to camp each summer and learn better cheers and more ways to motivate the school

Top Left: *Michelle Monroe and Edtonya Bartley give 'Joe Mariner' mascot Tomicia Robinson a big hug . . .* **Above:** *Drill team struts their stuff at halftime show. Team caption Teresa Escelera.* **Left:** *The entire Pep Squad together at the CIF semi finals held at the Sports Arena.* **Below Left:** *Flag team twirls and tosses us an awesome performance time after time.*

The 1986-87 Pep Squad was a multifacited and well rounded group of spirited Mariners that assisted our teams by promoting school support and spirit. The Saint Monica's Pep Squad is consistently one of the best at any local and league events, showing by far that **we are the best!**

Senior members will be much missed when they graduate this June, but the underclassmen will come forward next year and continue to lead us to many more successes . . . Pep Squad is under the direction of Miss Kelly Pruett (Cheerleaders) while the Band, Drill and Flag teams are directed by Mr. Greg Kocis.

Saint Monica's Drill Team

Although the Saint Monica Drill team has only been in existence for three years, the 1986-87 Drill Team has proved to have moved on to soaring heights. Through their first and second place victories this past year, these girls have proved to be more than just a drill/ dance team. The drill team has put in numerous hours of practice to perfect their routines for pep rallies and competitions. 1986-87 Drill Team has achieved many of it's set goals. They hope to achieve further and continue to serve Saint Monica's in the years to come.

A very special Person . . .

One very special person at Saint Monica's is **Sr. Jacquline Quinn.** *She runs the attendance part of our school and is in charge of the computer that is used to compile grades and cummulative grade point averages.*

Sister Jacquline Quinn

We need to take the time to acknowledge the hard work and dedication of the people who are often in the background but without whom our school would not function.

We are the CHAMPIONS . . .

In all games there must be a winner and a loser. On the evening of March 4, 1987 the Mariner Varsity Basketball Team played in the CIF semi-finals against the largest Catholic school west of the Mississippi, Mater Dei. **Twice,** *our team turned the game around, once coming back after being points behind. In the end, Mater Dei won, 48 47.* **We had lost the game, but we were not beaten.**

The spirit, the support our school gave to our team was a definite highpoint in Mariner Pursuit. Despite the fact that Saint Monicas has but ⅓ the population of Mater Dei, our cheering section was by far fuller. Going home on the buses afterwards students and faculty were singing the Alma Mater . . . **We are proud to be Mariners.**

Michelle,

The winding road of life continues and many more obstacles lie ahead of you. I am proud of your accomplishments, which sum up the last seventeen years and I am looking very much forward for you to grasp both new and positive knowledge as you climb the challenging ladder of success with an open mind and heart.

I LOVE YOU,
Daddy
